Doug Messing

Marina Services Director:
Randy Breault

2018 Tide Tables are here!

Many things are happening this year...

- **Live-aboard permit application:** You will see the posted notices on all dock gates indicating that we have *applied to BCDC for approval* to become a "live-aboard" marina. The Brisbane City Council has decided to move forward with this request, and we have NO TIMELINE on possible Bay Conservation and Development Commission hearing(s) or dates for approval etc., but when we are aware of any updates we will keep you posted. Boaters who are to be considered for this status will be those applicants who ALREADY have a boat here, ***so spread the word- it may be a good time to bring a boat into the Marina.***

- **Navigational aids:** We are currently in the process of repairing a couple of our markers and will have the lights back up and working next week.

- **IF something on the docks IS STUCK OR BREAKS:** Please call us and advise, rather than trying to repair it (*such as a broken water spigot at your dock box, etc.*) yourself! We recently had a very well-intentioned boater & his friends add additional work to a simple fix by trying to handle it themselves… so, PLEASE NEVER try to "turn off the water" to your DOCK! This can cause a LOT of damage to our high-pressure water system… THANKS!

REMEMBER-

- When you renew your California registration, remember to bring the new document to the office and **apply your 2019 stickers to your hull.** We have a number of boats showing *WAY expired* CF #'s, and we **will** have Brisbane PD walk the docks to issue citations. It is important to remember we receive critical benefits (***S.A.V.E. grant to remove derelict boats***) from these funds. Please also bring a new copy of your insurance policy when you renew… We are always here for your comments and suggestions!
