Madison Davis
Brisbane Parks and Recreation Commissioner

Who I Am

As a lifelong resident, I am fortunate to call Brisbane my hometown. Growing up in Brisbane afforded me the opportunity to receive a Brisbane School District education, the ability to perform for Brisbane Dance Workshop, and the experience of being a steward of San Bruno Mountain and the lagoon. As a graduate of San Francisco State University with a B.S. in Business Administration, I work at a tech startup consulting small business owners about marketing.

Why I'm Qualified

Growing up in Brisbane has undoubtedly shaped the person I am today. As a former Silverspot Nursery School substitute teacher and aide, I understand how essential it is to provide services for young families, develop constructive outlets for our youth, and keep Brisbane safe. I work to improve our community as a San Mateo County Court Appointed Special Advocate for foster care children and as a board member for Brisbane Dance Workshop. I also serve Brisbane on the Parks and Recreation Commission and work diligently to improve programming and services, while striving to make our Brisbane traditions relevant for future generations.

What I Bring to the Table

I have a proven ability to work efficiently and collaboratively with our city's staff and my fellow colleagues. As a commissioner I have demonstrated the ability to formulate an idea, research its viability, establish a subcommittee, plan a course of action, ultimately bringing the idea to life. My ability to determine a common ground, develop solutions, analyze information objectively, and think independently will be an asset to the city council as we face crucial decisions regarding our future.

My Vision

Brisbane arose from a spirit of self-determination and independence. Today, we face challenges that require us to maintain this same level of strength and commitment to our city. At the Baylands, I support development that is sustainable, will improve our financial health, and is safe for future generations to enjoy. As I look to the future, I stand as an advocate for our aging population by supporting programs that help people age comfortably in their homes. I am also committed to revitalizing Crocker Park so it may be better utilized and creating an environment where our businesses can flourish.

Request

With your support, I will continue striving to make Brisbane a special place to live and work. I would be honored to serve you as a city council member and respectfully ask for your vote.
