## Marina News

***November is suddenly here!***

The holidays approach too quickly, and suddenly there are turkeys to bake and gifts to buy! *With that in mind…*

**Jessica Levant's** beautiful S.F. Bay photos, on display for a couple of years, will be coming down on **Saturday, 11/7** to make way for a new exhibit. You and friends are invited to a "take-down party" in the Harbormaster's Office between **2:30 and 4:30 PM** and she will be happy to sell any of them at **30% off the listed price. Come check them out– they are the perfect nautical gift!**

⇒ Another **gentle reminder**: Please check the seaworthiness of your vessel in the coming weeks; when the next dredge season starts in June we will expect you to ***move your own boat*** when directed. We will be checking all vessels– please be a responsible owner; maintain your boat's motor and systems so that it moves under its own power.

Our Wi-Fi installation team continues to work on propagating the signal and there are many challenges, but progress is being made. If you have a boat on docks 5 and 6 and you would like to participate in the "pilot testing" of the system, give me a call. This FREE system will be a great improvement here.

The last two issues of Latitude 38 have addressed the concept of "sneak-aboards." In the October issue, "Max Ebb" gave tips on how to do it– and in November, the **magazine apologized for advocating this practice**. We are STRICTLY regulated by the B.C.D.C., and we are NOT a "live-aboard" facility. Unfortunately, this– and a recurrence of AIRBNB-type online short term boat rental offerings– continues to be an issue here. You may stay at the Marina 3 nights a week. Recently, boaters have had their berth licenses terminated for violating this important provision of that agreement. PLEASE do not rent your boat out to others, and PLEASE do not "live-aboard." ***Enough said!***

The door is always open, we are here to help make your Marina experience a good one.
