Marina News

Fall has fallen!

As the weather pattern begins to shift, we have predictions of a possible heavy rainy season to come this season. This is the perfect time to verify that your boat is shipshape, and that your dock lines are in good condition when windy storms appear.

The work on the dock upgrade project is progressing, with big improvements on Dock 4, and we are now on Dock 1 replacing some of the most corroded structures to improve your safety and comfort. **Our thanks go out to Chris Redfield, Todd Curtis and Dolan Shoblo for their continuing hard work to make the docks stronger and safer for all.** This is very demanding physical labor, and it requires great perseverance and focus. We will be evaluating new numbering systems, and plan to install new slip numbers in the coming months.

This month we will be leveling the paver stones in front of the Marina HQ, and cutting back the tree roots that are causing the upheaval. A root barrier is to be installed to prevent future trip hazards in this location.

A gentle reminder: Please attend to the seaworthiness of your vessel in the coming months, as when the next dredge season starts in June, we will expect you to ***move your own boat*** as directed. As you walk the docks, the vast majority of boats are beautiful and well cared for– the ones that aren't stand out in contrast. Please be a responsible owner and maintain your boat's motor and systems so that it moves under its own power.

We have been advised by some of our boaters that when they have gone to buy fuel at Oyster Point, they have sometimes found that the fuel dock is either closed, or out of fuel. To ensure the trip is a success, be sure to call ahead to verify that Drake Marine can handle your fuel needs, and that they are able to send someone to fuel your boat. Their number is 650-588-3015.

Thanks for all the help from those who offered their assistance during the dredge this season- especially to **Michael Lael**, who moved many boats for absent owners. And remember– my door is always open, we are here to help make your boating experience a good one.
