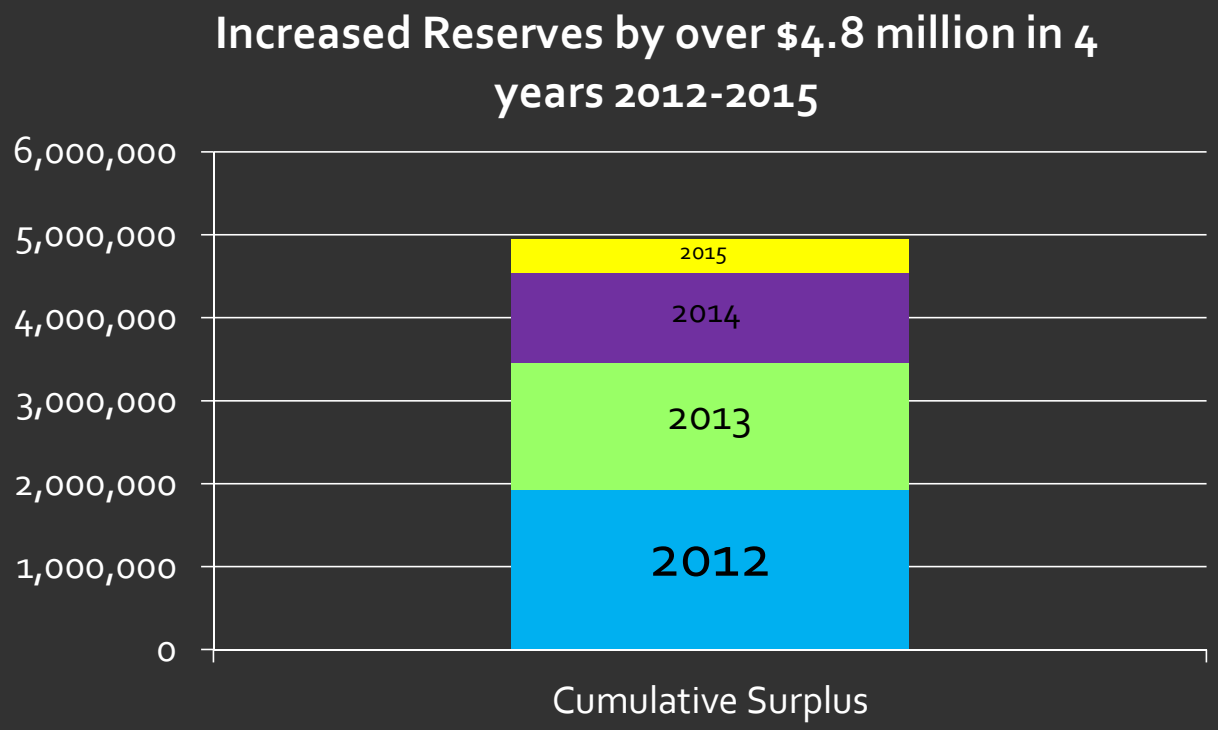
PRIORITY-BASED BUDGETING

- The City Council is committed to adopting fiscal plans that achieve the following 5 Results:
  - Ensuring Brisbane is a **SAFE** community
  - Enhancing residents' lives through **COMMUNITY BUILDING**
  - Promoting **ECOLOGICAL SUSTAINABILITY**
  - Creating opportunities through **ECONOMIC DEVELOPMENT,** and
  - Safeguarding community services through **FISCAL PRUDENCE**

4 YEARS IN THE BLACK



Examples of Responsible Spending:

Increased staffing for Police

Established new programs for

- Teens
- Skateboarders
- Economic Development

Caught up on deferred maintenance

- Pool
- Storm Drain System
- Trails and Paths

Set aside funds for Repair and Maintenance of Infrastructure

Set aside funds to reduce long-term liabilities

PARKSIDE PLAN

- At the September 1st City Council Meeting, Council…
  - directed MIG to use the modified alternative prepared by Councilmembers O'Connell and Davis as the basis for further plan preparation.
  - determined that a broader vision was appropriate for the Brisbane Village Shopping Center and adjacent parcels, with a focus on land uses that would encourage public gatherings and attract visitors from out of town.

PARKSIDE PLAN

- Also at the 9/1 meeting, MIG presented several renderings to help better envision the pedestrian environment & visual impacts of the alternatives.

PARKSIDE PLAN

- Public hearings at the Planning Commission level are likely to start in early 2017.

SIERRA POINT

Sierra Point, Brisbane

Sierra Point at Brisbane is located within a 20 minute drive from downtown San Francisco and 10 minutes from the San Francisco International Airport. It is surrounded by San Francisco Bay on three sides, offering spectacular views of the 580-berth Brisbane Marina and a dramatic setting for Class A offices and hotels.

The three remaining development opportunity sites at Sierra Point include:

A. Sierra Point Biotech Project: An approved 540,000 square foot biotech campus in five (5) mid-rise buildings on 23 acres along the southern edge of Sierra Point.

B. Opus Office Project: Two office towers totaling 448,000 square feet on a 9-acre site have been approved at the northwesterly corner of Sierra Point.

C. Hotel Site: A 6-acre site at the eastern end of Sierra Point that has been Master-Planned for a 700-room luxury hotel.

PUBLIC PROCESS FOR BAYLANDS PROJECT

2006-08

- UPC (applicant) submitted Specific Plan (2006)
- Community went through process to develop alternative proposal (2007-08)

2009-14

- Commission/Committee Public Space Planning Workshops (2009)
- 4 alternatives authorized to be studied in forthcoming EIR including a Renewable Energy Alternative (2009)
- Revised Specific Plan, prepared by UPC, released (2011)
- Draft EIR prepared by consultant (2011-13), reviewed by public agencies, individuals and community groups (2013-14)

2015-17

- Final EIR published and reviewed by Planning Commission (2015), land use and EIR recommendation to Council (August 2016)
- Council adopts schedule to review the project and EIR, meeting monthly (2016-17)

In 2017, Council will decide if any changes are needed to be made to the General Plan. Ultimately, the Council has expressed the final outcome of the Baylands development will be decided by Brisbane voters.

SUSTAINABILITY FRAMEWORK

- Public education is just getting started on the 10 principles that make up the Framework

CLIMATE FACT #40

Some lifestyle choices and their resultant consumption of resources lead to larger carbon footprints than are necessary. Following the "One Planet Living" principles can lead to a lower carbon footprint and a more sustainable lifestyle. These principles have been incorporated into the Sustainability Framework adopted by City Council to aid in future development and the sustainable use of resources. The next few climate facts will cover the 10 principles in the adopted Sustainability Framework. Principle 1) Zero Carbon Buildings: Building structures for energy efficiency and delivering energy with renewable technologies. The vision is that new infrastructure will be ran utilizing locally generated renewable energy.

- Open Space and Ecology Committee

SUSTAINABILITY FRAMEWORK

- 1. Zero Carbon Buildings

Figure 12. The David & Lucile Packard Foundation Project in Los Altos, California achieved Zero Net Energy certification in 2013. http://www.packard.org/about-the-foundation/our-green-headquarters/

SUSTAINABILITY FRAMEWORK

- 2. Zero Waste

Figure 15. Recology's plan for advanced resource recovery facility neighboring the Brisbane Baylands site to help City of San Francisco achieve goals of zero waste by 2020.
http://www.arup.com/Projects/Recology_advanced_resource_recovery_facility.aspx

SUSTAINABILITY FRAMEWORK

- 3. Sustainable Transportation

Figure 21. Caltrain's plans for a greener commuting corridor including the plan for blended stations and electrification. http://www.greencaltrain.com/2014/11/fta-planner-blended-station-designs-may-benefit-bay-area/

SUSTAINABILITY FRAMEWORK

- 4. Local and Sustainable Materials

Figure 30. Programs like Calrecycle, the Environmental Protection Agency (EPA), and Whole Building Design Guide (WBDG) have developed material to support the exploration of green building materials to support designers on product selection and analysis of different environmental factors.
http://www.calrecycle.ca.gov/greenbuilding/materials/;

http://www.wbdg.org/design/sustainable.php

SUSTAINABILITY FRAMEWORK

- 5. Local and Sustainable Food

Figure 33. Urban farming
http://www.motherearthliving.com/green-living/americas-top-10-urban-farms.aspx

SUSTAINABILITY FRAMEWORK

- 6. Sustainable Water

Figure 43. Engineered wetlands to support symbiotic relationship between sensitive ecological areas with development. http://hoffman-realty.com/properties/services/wetland-mitigation-bank/

SUSTAINABILITY FRAMEWORK

- 7. Open Space and Habitat

Figure 49. San Bruno Mission Blue nursery http://www.mountainwatch.org/stewardship-nursery-container/

SUSTAINABILITY FRAMEWORK

- 8. Culture and Heritage

Figure 50. Brisbane Bayshore Roundhouse in need of restoration and revitalization.
http://shawnclover.com/2011/11/05/the-old-abandoned-bayshore-roundhouse/

SUSTAINABILITY FRAMEWORK

- 9. Economic Vitality with Equity & Ecology

Figure 53. The Hudson Yards project located at New York City's railyard and its neighbor, the Highline Park project, are both milestones in sustainable building, adaptive reuse. Hudson Yards also features a pneumatic vacuum waste elimination tube system.
https://nyintl.net/article/hudson_yards_sustainable_building_milestone;
http://www.nycgovparks.org/parks/the-high-line

SUSTAINABILITY FRAMEWORK

- 10. Recreation, Health, Safety & Happiness

Figure 62. The San Francisco Bay Trail is a bicycle and pedestrian recreational trail that will eventually allow continuous travel around the shoreline of San Francisco Bay. As of 2014, approximately 340 miles (550 km) of trail have been completed. When finished, the Bay Trail will extend over 500 miles (805 km) to link the shoreline of nine counties, passing through 47 cities and crossing seven toll bridges. It is a project of the Association of Bay Area Governments (ABAG). http://www.baytrail.org/

BRISBANE IS GETTING RECOGNIZED FOR ITS EFFORTS AROUND SUSTAINABILITY

City of Brisbane, CA-City Hall added 2 new photos.
Published by Caroline Cheung [?] · October 1 at 11:13am ·

Brisbane was just awarded the very first Gold-level Beacon Award by the Institute of Local Governments at the League of California Cities conference in San Jose! Thank you to the City Council, Community, Open Space and Ecology Committee, C/CAG and Staff for their work in this great achievement for the City of Stars!
