Title 24 Training

workshop will cover:
Improving Energy Code Compliance of Nonresidential Envelopes.
The instructor will be Russ King, M.E. This workshop aims to give you specific tools and strategies for enhancing energy code compliance of fenestration performance and site-built fenestration.

This training is hosted by the City of Daly City in cooperation with the City of Brisbane and the County of San Mateo.

The free training is provided by the Bay Area Regional Energy Network (BayREN), a collaboration of nine counties that implements energy savings programs and administers climate resources and sustainability programs

AUGUST 28, 2015
