Subject: Request for Baylands School District Scenarios

Hello Brisbane City Council,

Please strongly consider moving forward with the study of the Baylands development as it pertains to educational opportunities for the surrounding community of Brisbane and its impact to the community.

I currently have a grade school child (entering 2nd grade) and another child entering Kindergarten. Baylands school(s) would be completed before they complete elementary and secondary schools and if it makes sense, I would like to be able to have the ability of provide them the opportunity to choose that school district. I do think I need more information and a survey can help me as a contributing citizen and homeowner in this community. I also see myself to be a long-term member of this community and would like Brisbane to have the opportunity to flourish as developments grow around it.

Thank you for your time and consideration.

Sincerely,  
Christine Oquendo
