

revised draft
ORDINANCE NO. 566

AN ORDINANCE OF THE CITY OF BRISBANE AMENDING CHAPTER 16.12, TENTATIVE AND FINAL PARCEL MAPS AND SUBDIVISION MAPS--WHERE REQUIRED; CHAPTER 16.16, TENTATIVE MAP PROCEDURES; CHAPTER 16.20, FINAL MAP PROCEDURES; CHAPTER 16.24, PARK IMPROVEMENTS—BAY ACCESS—NATURAL HEATING AND COOLING; SECTION 17.02.150, CONDOMINIUM; AND CHAPTER 17.30, CONDOMINIUMS, OF THE MUNICIPAL CODE

The City Council of the City of Brisbane hereby ordains as follows:

SECTION 1: Section 16.12.010 of Chapter 16.12, Tentative and Final Parcel Maps and Subdivision Maps—Where Required, is amended to read as follows:

16.12.010 – Tentative and final subdivision map—When required.

A tentative and final subdivision map shall be required for the following:

- A. All subdivisions creating five (5) or more parcels;
- B. Five (5) or more condominiums as defined in Section 783 of the Civil Code;
- C. A community apartment project containing five (5) or more parcels;
- D. The conversion of a dwelling to a stock cooperative containing five (5) or more dwelling units.

SECTION 2: Section 16.12.020 of Chapter 16.12, Tentative and Final Parcel Maps and Subdivision Maps—Where Required, is amended to read as follows:

16.12.020 – Tentative and final subdivision map—Exceptions to requirements.

In the following cases where a tentative and final subdivision map would be required per Section 16.12.010, a tentative and final parcel map shall be required instead:

- A. The land before division contains less than five (5) acres, each parcel created by the division abuts upon a maintained public street or highway, and no dedications or improvements are required by the city council; provided, however, that this section shall not be applicable to the conversion of any existing structure to condominiums, community apartments, or and stock cooperatives described in Section 16.12.010;
- B. Each parcel created by the division has a gross area of twenty (20) acres or more and has an approved access to a maintained public street or highway;
- C. The land consists of a parcel or parcels of land having approved access to a public street or highway, which comprises part of a tract of land zoned for industrial or commercial development, and which has the approval of the city council as to street alignments and widths;
- D. Each parcel created by the division has a gross area of not less than forty (40) acres or is not less than a quarter of a quarter section; or
- E. The land being subdivided is solely the creation of an environmental subdivision pursuant to Section 66418.2 of the Government Code.

SECTION 3: Section 16.12.025 is added to Chapter 16.12, Tentative and Final Parcel Maps and Subdivision Maps—Where Required, to read as follows:

16.12.025 – Final subdivision map—Waiver of requirements. The requirements for a final subdivision map may be waived for the construction of a condominium project on a single parcel, if the planning commission reviews an application for waiver, accompanied by a tentative subdivision map, and finds that the proposed division of land complies with requirements established pursuant to this title as to the following:

- A. Area;
- B. Improvement and design;
- C. Floodwater drainage control;
- D. Appropriate improved public roads;
- E. Sanitary disposal facilities;
- F. Water supply availability;
- G. Environmental protection;
- H. Recorded monumentation of the boundaries of the parcels;
- I. Other requirements of this title and the Subdivision Map Act.

SECTION 4: Section 16.12.030 of Chapter 16.12, Tentative and Final Parcel Maps and Subdivision Maps—Where Required, is amended to read as follows:

16.12.030 – Tentative and final parcel map—When required. A tentative parcel map and final parcel map shall be required for the following:

- A. All subdivisions creating less than five (5) parcels;
- B. Less than five (5) condominiums as defined in Section 783 of the Civil Code;
- C. A community apartment project containing less than five (5) parcels;
- D. The conversion of a dwelling to a stock cooperative containing less than five (5) dwelling units;
- E. All subdivisions for which tentative and final subdivision maps are not required due to an exception set forth in Section 16.12.020.

SECTION 5: Section 16.16.190 of Chapter 16.16, Tentative Map Procedures, is amended to read as follows:

16.16.190 – Public hearing.

- A. When the application is deemed complete, the planning director shall schedule a public hearing at which the tentative map shall be considered by the planning commission.
- B. Not less than ten (10) days before the public hearing the planning director shall give notice of the time and place thereof and a general description of the location of the proposed subdivision by posting in at least three public places in the city.
- C. Not less than ten (10) days prior to such hearing there shall be mailed, postage prepaid, a notice of the time and place of such hearing and a general description of the locale and the proposed subdivision to all persons whose names and addresses appear on

the last equalized assessment roll as owning real property within three hundred (300) feet from the exterior boundaries of the proposed subdivision.

D. In the case of a proposed conversion of residential real property to a condominium project, community apartment project or stock cooperative project, said notice of the public hearing shall be given by United States mail to each tenant of the subject property. In addition to notice of the time and place of the public hearing, the notice shall include notification of the tenants' right to appear and be heard. Copies of the staff report for condominium conversion applications shall be sent to the residential tenants of the subject building, as well as to the applicant, per Government Code Section 66452.3.

E. Fees may be collected from the subdivider for expenses incurred under this section.

F. The planning commission shall conduct a public hearing on the application for the tentative map.

SECTION 6: Section 16.16.220 of Chapter 16.16, Tentative Map Procedures, is amended to read as follows:

16.16.220 Action by planning commission -- Findings for approval.

After the conclusion of the public hearing the planning commission shall approve or conditionally approve the tentative map if it makes all of the following findings:

A. The tentative map, together with the provisions of its design and improvement is consistent with the general plan and any applicable specific plan.

B. The real property to be subdivided, and each lot or parcel to be created is of such character that it can be used safely for building purposes without danger to health or peril from fire, flood, geologic hazard or other menace.

C. Each lot or parcel to be created will constitute a buildable site and will be capable of being developed in accordance with the applicable provisions of the zoning ordinance.

D. The site is physically suitable for the type and proposed density of development.

E. The design of the subdivision and improvements, and the type of improvements is not likely to cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat, or to cause serious public health problems.

F. The design of the subdivision or type of improvements will not conflict with easement, acquired by the public at large, for access through, or use of, property within the proposed subdivision. The planning commission may approve a map if it finds that alternate easements for access or for use will be provided, and that these will be substantially equivalent to ones previously acquired by the public. This subsection shall only be applicable to easements of record or easements established by judgment in a court of competent jurisdiction.

G. The design of the subdivision will provide for future passive or natural heating or cooling opportunities, to the extent feasible, in terms of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social and technological factors.

1. Examples of passive or natural heating and cooling opportunities in subdivision design include design of lot size configuration to permit orientation of a structure in an east-west alignment for southern exposure and to take advantage of shade or prevailing breezes.

2. In providing for future passive or natural heating or cooling opportunities in the design of the subdivision, consideration has been given to local climate, contour and configuration of the parcel to be subdivided, and to other design and improvement requirements, without resulting in reduced allowable densities or the percentage of a lot which may be occupied by a building or structure under the zoning ordinance as applicable at the time of filing of the tentative map.

3. The requirements of this section do not apply to condominium projects which consist of the subdivision of airspace in an existing building when no new structures are added.

SECTION 7: Section 16.16.220 of Chapter 16.16, Tentative Map Procedures, is amended to read as follows:

16.16.230 Action by planning commission -- When disapproval of tentative map is required.

The planning commission shall deny approval of a tentative map if it makes any of the following findings:

- A. That the tentative map is not consistent with the general plan or any applicable specific plan;
- B. That the design or improvement of the proposed subdivision is not consistent with the general plan or any applicable specific plan;
- C. That the site is not physically suitable for the type of development;
- D. That the site is not physically suitable for the proposed density of development;
- E. That the design of the subdivision or the proposed improvements are likely to cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat;
- F. That the design of the subdivision or the types of improvements is likely to cause serious public health problems;
- G. That the design of the subdivision or the type of improvements will conflict with easements acquired by the public at large, for access through or use of, property within the proposed subdivision, and that no alternative easement for access or for use will be provided which will be substantially equivalent to ones previously acquired by the public;
- H. That the design of the subdivision will not provide for feasible future passive or natural heating or cooling opportunities; the requirements of this section do not apply to condominium projects which consist of the subdivision of airspace in an existing building when no new structures are added.

SECTION 8: Section 16.20.270 of Chapter 16.20, Final Map Procedures, is amended to read as follows:

16.20.270 – City council consideration and review of final maps.

- A. After the final map has been checked and approved as provided above, and when all certificates, except for the approval certificate of the city clerk appearing on the final map have been signed and, where necessary, acknowledged, the city engineer shall transmit the final map to the city clerk for action by the city council.
- B. The city council shall within a period of ten (10) days after the filing of the final map for approval, or at its next regular meeting, approve the final map if the map meets

the requirements and conditions which were applicable to the subdivision at the time of the approval of the tentative map imposed by the Subdivision Map Act and by this title. The foregoing time limit may be extended by mutual consent of the city council and the subdivider.

C. The city council shall not approve the final map unless it finds that the proposed subdivision, together with the provisions for its design and improvement is consistent with the general plan of the city or any applicable specific plan. The city council shall deny approval of the final map if it makes any of the findings set forth in Section 16.16.230. Any such disapproval shall be accompanied by a finding identifying the requirements or conditions which have not been met or performed.

D. Concurrently with the approval of the final map the city council shall accept or reject such offers of dedication as it deems advisable. As a condition precedent to the acceptance of any roads or streets, pedestrianways, drainage channels, easements and other rights-of-way, the city council shall require the subdivider, at his option, to either improve, or in writing agree to improve the streets, pedestrianways, drainage channels, easements and other rights-of-way in the subdivision. The agreement shall be accompanied by adequate security to secure performance.

E. The city council shall not approve the final map for subdivision to be created from the conversion of residential real property into a condominium project, a community apartment project, or a stock cooperative project unless it finds all of the following:

1. Each of the tenants of the proposed condominium, community apartment project, or stock cooperative project has received, pursuant to Section 66452.18 of the Government Code, written notification of intention to convert at least sixty (60) days prior to the filing of a tentative map pursuant to Section 66542 of the Government Code. There shall be a further finding that each such tenant, and each person applying for the rental of a unit in such residential real property, has, or will have, received all applicable notices and rights now or hereafter required by this title or Sections 66451 through 66469 of the Government Code. In addition, a finding shall be made that each tenant has received ten (10) days' written notification that an application for a public report will be, or has been, submitted to the Department of Real Estate, that the period for each tenant's right to purchase begins with the issuance of the final public report, and that such report will be available on request. The subdivider shall also give written notice that the public report from the Department of Real Estate has been received within five (5) days from receipt. The written notices to tenants required by this subdivision shall be deemed satisfied if such notices comply with the legal requirements for service by mail and the requirements of Section 66427.1 of the Government Code.

2. Each of the tenants of the proposed condominium, community apartment project, or stock cooperative project has been, or will be, given written notification within ten (10) days of approval of a final map for the proposed conversion.

3. Each of the tenants of the proposed condominium, community apartment project, or stock cooperative project has been, or will be, given one hundred eighty (180) days' written notice of intention to convert prior to termination of tenancy due to the conversion or proposed conversion. The provisions of this subdivision shall not alter or abridge the rights or obligations of the parties in performance of their covenants, including, but not limited to, the provision of services, payment of rent or the obligations imposed by Sections 1941, 1941.1, and 1941.2 of the Civil Code.

4. Each of the tenants of the proposed condominium, community apartment project, or stock cooperative project has been, or will be, given notice of an exclusive right to contract for the purchase of his or her respective unit upon the same terms and conditions that such unit will be initially offered to the general public or terms more favorable to the tenant. The right shall run for a period of not less than ninety (90) days from the date of issuance of the subdivision public report pursuant to Section 11018.2 of the Business and Professions Code, unless the tenant gives prior written notice of his or her intention not to exercise the right.

5. This section and Section 16.20.280 shall not diminish, limit or expand, other than as provided in these sections, the authority of any city, county, or city and county to approve or disapprove condominium projects.

SECTION 9: Chapter 16.24, Park Improvements—Bay Access—Natural Heating and Cooling, is amended to read as follows:

Chapter 16.24
PARK IMPROVEMENTS -- BAY ACCESS

16.24.010 Dedication of land for park and recreational purposes.

The subdivider shall provide for adequate and appropriate recreational facilities for the subdivision by the dedication of land in the subdivision or by the payment of fees in lieu thereof, in accordance with the conditions and requirements of this section; provided, however, that the requirements of this section may be satisfied by a development agreement between the subdivider and city council. The land, fees, or combination thereof are to be used only for the purpose of developing new or rehabilitating existing neighborhood or community park or recreational facilities to serve the subdivision. Any fees collected shall be committed within five years after the payment of the fees or the issuance of building permits on one-half of the lots created by the subdivision, whichever occurs later.

16.24.020 Amounts of area to be dedicated.

Where there are more than fifty (50) lots to be established in the subdivision or when a condominium project, stock cooperative, or community apartment project exceeds fifty (50) dwelling units even though the number of parcels may be less than fifty (50), and where land therein can be properly located for public recreational facilities in accordance with the policies and standards for parks and recreation facilities contained in the general plan or applicable specific plan, the subdivider shall dedicate an area for such purposes on the basis of three (3) acres dedicated for each 1,000 population within the subdivision to be developed, assuming 2.35 persons per proposed unit.

16.24.030 Dedication -- Payment of fees in lieu.

Where there are fifty (50) lots or less in the subdivision or fifty (50) units or less in a residential condominium project, stock cooperative, or community apartment project, -the subdivider shall, in lieu of dedication of land, pay a fee in a sum equivalent to the following formula: Number of proposed units times 2.35 persons per household divided by 1,000 times 3 acres times the fair market value of 1 acre of the subject property as determined by the planning director at the time of the filing of the tentative map. A

residential condominium project, stock cooperative, or community apartment project with more than fifty (50) units may be required to dedicate land, even though the number of lots may be less than fifty (50), or pay a fee in lieu.

16.24.040 Dedication -- Credits for park and recreational improvements and for private open space.

A. If the subdivider provides park and recreational improvements to the dedicated land, the value of the improvements together with any equipment located thereon shall be a credit against the payment of fees or dedication of land required by this chapter.

B. If a condominium project or other common interest development as defined in Civil Code Section 1351(c) provides private open space within the development which is usable for active recreational uses, the value of such land shall be a credit against the payment of fees or dedication of land required by this chapter.

16.24.050 Dedication -- Timing of determination and payment.

A. At the time of approval of the tentative map, the approving agency shall determine pursuant to this chapter—the land to be dedicated and/or the fees to be paid by the subdivider. At the time of filing of the final map or final parcel map, the subdivider shall dedicate the land or pay the fees as previously determined, except as provided below .

B. Open space covenants for private park or recreational facilities shall be submitted to the city upon the filing of the final subdivision or parcel map and shall be recorded contemporaneously with such map.

C. At the time of approval of the final map, the approving agency shall specify when development of the park and recreational facilities shall be commenced.

D. Any approval of a waiver of a final parcel map pursuant to Section 16.12.050 shall be subject to dedication of land, payment of fees and/or recordation of open space covenants as required by this chapter.

16.24.060 Exemptions.

The provisions of Sections 16.24.010 through 16.24.050 shall not apply to:

A. Subdivisions containing less than five (5) parcels and not used for residential purposes; provided, however, that a condition of approval of the tentative parcel map may require that if a building permit is requested for construction of a residential structure or structures on one (1) or more of the parcels within four (4) years, the fee may be required to be paid by the owner of each such parcel as a condition to the issuance of such permit;

B. Condominium projects or stock cooperatives that consist of the subdivision of airspace in an existing apartment building that is more than five (5) years old when no dwelling units are added;

C. Commercial or industrial subdivisions;

D. Condominium projects restricted so as to be affordable to households with very-low or low incomes, subject to restrictions approved by the City and recorded with the County of San Mateo, for which outdoor areas are provided in compliance with Section 17.30.030;

E. Condominium projects designed and restricted to use by households with one or more members who are 62 years of age or older, subject to restrictions approved by the City and recorded with the County of San Mateo.

16.24.070 Bay access.

A. No tentative or final subdivision or parcel map of any subdivision fronting upon the shoreline of San Francisco Bay shall be approved unless the subdivision provides or has available reasonable public access by fee or easement from public highways to land below the ordinary high water mark within or at a reasonable distance from the subdivision.

B. Any public access route or routes provided by the subdivider shall be expressly designated on the tentative or final map, and such map shall expressly designate the governmental entity to which such route or routes are dedicated.

C. Reasonable public access shall be determined by the planning commission.

D. In making the determination at what shall be reasonable public access, the planning commission shall consider:

1. That access may be by highway, foot trail, bike trail, horse trail, or any other means of travel;
2. The size of the subdivision;
3. The type of shoreline and appropriate public use;
4. The likelihood of trespass on private property and reasonable means of avoiding such trespass.

SECTION 10: Section 16.24.090 of Chapter 16.24, Park Improvements—Bay Access—Natural Heating and Cooling, is repealed in its entirety.

SECTION 11: Section 17.02.150 of Chapter 17.02, Definitions, is amended to read as follows:

17.02.150 Condominium. "Condominium" means a building, or group of buildings, in which dwelling units, commercial/retail/office/warehouse spaces, floor areas, or other portions of the property are owned individually or restricted for the exclusive use of a single owner, and the structure, common areas, and common facilities are owned by all the owners on a proportional, undivided basis. The individual ownership interest may include a fee, a life estate, a leasehold, or a right of use during a specific period of time. As used in this title, the term includes "community apartment project" and "stock cooperative" as defined by State Civil Code Sections 1351(d) and (m).

SECTION 12: Chapter 17.30, Condominiums, is amended to read as follows:

**Chapter 17.30
CONDOMINIUMS**

17.30.010 Purposes of chapter.

The purpose of this chapter is to regulate the development of new residential, commercial and mixed-use condominiums and the conversion of existing units to such condominiums, with the objectives of encouraging local equity ownership, while discouraging the conversion of existing rental housing to condominiums or cooperatives unless it is demonstrated that such conversions would not adversely affect the rental

market or would provide unique housing opportunities for very-low, low- and/or moderate-income households, in addition to the objectives set forth in Section 17.01.030.

17.30.020 Use Permit required.

A. Before issuance of any building permit for any condominium and before the conversion of any existing structure to condominiums, the developer, builder or other person seeking to construct the project or convert the existing structure shall first obtain from the planning commission a use permit pursuant to the provisions of Chapter 17.40 and this Chapter.

17.30.030 Development standards.

A. The following development regulations shall apply to all newly-constructed condominiums and condominium conversions for residential and/or commercial occupancies:

1. Regulations governing the use, building height, required yards, building separation, signs, off-street parking, and other explicit regulations, where applicable and where not governed by the provisions of this chapter, shall be those of the district within which the development is located.

2. The maximum allowable density in any residential condominium shall be the density specified for the district in which the condominium is located.

3. Separate and independent water, sewer, electrical, gas, and telecommunications systems shall be provided for each unit. Exceptions may be approved by the Planning Commission when the applicant satisfactorily demonstrates, through the provision of adequate CC&Rs and/or other appropriate measures, that the benefits of shared utilities/facilities outweigh the detriments for the project, in terms of the arrangement (side-by-side versus stacked) and/or number of units proposed.

B. The following development regulations shall apply to newly-constructed residential condominiums and residential condominium conversions (including residential units in mixed-use developments):

1. All permanent mechanical equipment, such as motors, compressors, pumps and compactors that could be a source of structural vibration or structure-borne noise shall be shock mounted with inertia blocks or bases and/or vibration isolators.

2. Either washer and drier hookups shall be provided for each unit or 1 washer and 1 drier shall be installed in a laundry room for every 5 units

3. 125 cubic feet of enclosed storage area shall be provided for each unit.

4. Outdoor areas shall be provided for active or passive recreational use for a total combined area equal to 400 sq. ft. per unit. Such areas may include decks, patios, lawns with a slope not exceeding 10%, and landscaped areas accessed with walkways and provided with permanent seating, but shall not include walkways that serve as the required means of egress. Such areas may be for use in common or dedicated to private use. Exceptions may be approved by the Planning Commission if adequate alternatives are proposed on site or available in the vicinity.

17.30.040 Application for condominium use permit.

A. The application for a use permit for newly-constructed condominiums or condominium conversions shall be accompanied by the following:

1. A map to a workable scale, showing the site in relation to surrounding property, existing roads and other existing improvements;

2. A site plan, showing existing and proposed improvements, locations of buildings on the ground, orientation of buildings, utilities, public services, public facilities, streets and alleys, landscaping, and the boundaries of the projects, including the details necessary to demonstrate compliance with the applicable development standards per Section 17.30.030;

3. Drawings showing how airspace is to be divided within the condominium consistent with the requirements for a "condominium map" per California Civil Code Sections 1531 (e) & (f);

4. Application for tentative parcel or subdivision map approval, including a copy of the tentative parcel or subdivision map;

5. Floor plans and elevations of all existing and proposed buildings and structures, including the details necessary to demonstrate compliance with the applicable development standards per Section 17.30.030;

6. A copy of the proposed declaration of restrictions (for condominium projects with unit-owners associations), or maintenance agreement (for smaller condominium projects without unit-owners associations) as required by the provisions of Section 1355 of the Civil Code of the state, including the following:

a. A requirement for binding arbitration for tie votes;

b. Provisions addressing property, general liability, earthquake and flood insurance responsibilities;

c. Provisions addressing maintenance responsibilities for roof, gutters, sidewalks, painting, landscaping, any habitat areas subject to the San Bruno Mountain Area Habitat Conservation Plan, and other common area improvements (including timing of maintenance items and method to apportion costs);

d. Provisions for the reconstruction of the project in accordance with codes in effect at the time of such reconstruction, in the event of the destruction of the condominium project;

e. A provision specifying that the City of Brisbane is named as a third-party beneficiary for enforcement purposes, if recommended by the city attorney; and

7. Any information deemed necessary or desirable in assisting the commission in its determinations.

B. The application for a use permit for newly-constructed condominiums shall be accompanied by an application for a design permit as required by Sections 17.01.105 and 17.42.010 of this title. The planning director may determine that the application for the design permit shall be processed first, prior to completion and processing of the application for the condominium use permit.

C. The application for a use permit for a residential condominium conversion (including conversion of a mixed-use development with residential units) shall include, in addition to the requirements in Section 17.30.040.A, the following information:

1. A building history report, including the following:

a. The date of construction of all elements of the project,

b. A statement of the major uses of the project since construction,

c. The date and description of each major repair or renovation of any element since the date of construction,

d. The name and address of each present tenant of the project,
e. In the event that any of the information in subsections a. through d. cannot be provided, an affidavit or declaration setting forth in detail all efforts undertaken to discover such information and reasons why the information cannot be obtained;

2. A property inspection report prepared by a licensed civil engineer, structural engineer, architect, general building contractor and/or general engineering contractor, determining the level of current building and fire code compliance for and describing the condition and estimating the useful life of each of the following elements of each structure within the project:

- a. Foundations,
- b. Structural elements,
- c. Interior walls, ceilings and floors (inspected for termite, dry rot or water damage, including toxic mold),
- d. Roofs,
- e. Drainage systems,
- f. Exterior sidings and finishes,
- g. Paved surfaces,
- h. Mechanical systems,
- i. Electrical systems,
- j. Plumbing systems, including sewer systems,
- k. Landscaping,
- l. Sprinkler systems for landscaping,
- m. Utility delivery systems,
- n. Central or community heating and air conditioning systems,
- o. Fire protection systems, including any automatic sprinkler systems,
- p. Alarm systems and property security in general,
- q. Smoke detectors and any required carbon monoxide alarms,
- r. Standpipe systems,

3. Written certification from a licensed appliance repair contractor on the working condition of all private and common appliances and mechanical equipment;

4. Written certification from a licensed painting contractor on the condition of all exterior painted surfaces;

5. Written certification from a licensed roofing contractor on the condition of all roofs;

6. A structural pest control report prepared by a licensed structural pest control operator pursuant to Section 8516 of the Business and Professions Code;

7. An acoustical test data report on the noise attenuation characteristics of existing party walls, floors and ceilings prepared by a licensed acoustical consultant, based upon a representative sampling of the units, identifying any current Building Code standards for exterior and interior noise transmission that cannot be met.

8. A summary of average rents for each bedroom type of rental unit, and a detailed unit history containing the following information:

- a. Location of unit,
- b. Number of rooms,
- c. Size of unit in square feet,
- d. Rental rate during two (2) years preceding the date of submittal of the application, indicating dates of rental rate increases,

- e. Duration of occupancy of present tenants;
- 9. A housing and tenant relocation report prepared by a qualified consultant approved by the planning director, containing the following information:
 - a. The number of multiple dwelling rental units which will remain after the conversion,
 - b. The nature and type of relocation assistance proposed by the applicant, including financial assistance and the provision of alternative housing facilities, including relocation programs,
 - c. Vacancy information in rental units and the availability thereof within the city of Brisbane,
 - d. The proposed schedule of meetings which the applicant plans or proposes to hold with tenants to explain the application and its ramifications to the tenants,
 - e. The proposed phasing or timing schedule of conversion and sale of units,
 - f. Whether existing tenants will be given any discount from otherwise applicable sales prices,
 - g. Any plan for temporary displacement of tenants who purchase units,
 - h. A description of the demographic composition of the tenants, including information on age, persons per unit, persons over age sixty-two (62), number of permanent disabled persons, and tenure per unit;
 - i. Suitable proof of compliance with the residential tenant notification requirements in Government Code Sections 66452.17 and 66452.18.

17.30.050 Notice.

- A. In addition to the requirements set forth in Chapter 17.54, notice shall be given to the residential tenants in any building proposed to be converted to condominiums, concurrent with the notice required by Section 16.16.190.D.
- B. Copies of the staff report for condominium conversion applications shall be sent to the residential tenants of the subject building, as well as to the applicant, per Government Code Section 66452.3.

17.30.060 Findings.

- A. In addition to the findings required for the granting of a use permit as set forth in Section 17.40.060, no use permit for a residential condominium conversion (including conversion of a mixed-use development with residential units) shall be granted unless the planning commission also finds and determines that:
 - 1. The condominium conversion will not adversely affect the rental market by not reducing the residential rental vacancy rate to less than 5.0% or
 - 2. The condominium conversion will provide unique housing opportunities for very-low-, low- and/or moderate-income households, not currently found among comparable market-rate condominium units, that exceed the requirements of the municipal code's basic inclusionary requirement by providing one more affordable unit than required in Section 17.31.030.B.3, based upon proposed sales prices, financing and projected monthly dues, in addition to other factors as determined by the planning commission. For example, if comparable market-rate units are currently not affordable to

moderate-income households at an affordable ownership cost as defined in Section 17.31.010.A.1, the project will include more units affordable to moderate-income households than would be required, and for projects of 5 or fewer units, which would not be subject to the inclusionary requirement, at least 1 unit affordable to moderate-income households would be provided. If comparable market-rate units are currently affordable to moderate-income households, the project will include more units affordable to low-income households at an affordable ownership cost as defined in Section 17.31.010.A.2 than would be required, and for projects of 5 or fewer units, which would not be subject to the inclusionary requirement, at least 1 unit affordable to low-income households would be provided.

17.30.070 Action by planning commission—Mandatory conditions.

The planning commission may either grant or deny the application for the condominium use permit. If granted, the planning commission may impose such conditions and requirements as it deems appropriate in order to make all of the findings prescribed in Section 17.30.060, but the following mandatory conditions shall be included in every condominium use permit, as applicable:

A. The required off-street parking spaces, excluding any guest parking spaces, shall be assigned to and included in the ownership of each individual condominium unit and shall not be sold or transferred except with the sale of such unit.

B. For residential condominium conversions (including conversion of a mixed-use development with residential units), any hazardous and unsafe conditions identified through the inspection required per Section 17.30.060 shall be corrected prior to the first sale of any of the converted units.

17.30.080 Appeals.

A. Any decision or determination made by the planning commission pursuant to this chapter may be appealed to the city council in accordance with the procedures et forth in Sections 17.52.101 and 17.52.020 of this title, except that the appeal shall be filed within ten (10) calendar days after the date on which the decision or determination is rendered, consistent with Section 16.44.020 and Government Code Section 66452.5.

B. Notice of any appeal regarding a use permit for residential condominium conversions (including conversion of a mixed-use development with residential units) shall be given to residential tenants of the building subject to the proposed condominium conversion, consistent with Section 16.44.050.B.3 and Government Code Section 66452.5.

SECTION 13: Where a use permit, design permit, building permit or variance approval has been issued through final action by the City prior to the effective date of this Ordinance, the holder of such permit or approval may proceed to construct the improvements or establish the use authorized by such permit or approval and the same shall be exempted from any conflicting regulations that may be contained in this Ordinance.

SECTION 14: If any section, subsection, sentence, clause or phrase of this Ordinance is for any reason held by a court of competent jurisdiction to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portions of

this Ordinance. The City Council of the City of Brisbane hereby declares that it would have passed this Ordinance and each section, subsection, sentence, clause and phrase thereof, irrespective of the fact that one or more sections, subsections, sentences, clauses or phrases may be held invalid or unconstitutional.

SECTION 15: This Ordinance shall be in full force and effect thirty days after its passage and adoption.

* * *
