Planning Commission Agenda Report

TO: Planning Commission For the Meeting of December 8, 2011

FROM: Hal Toppel, City Attorney

SUBJECT: **3000-3500 Marina Boulevard;** Development Agreement DA-1-11; adoption of ordinance approving Development Agreement for Sierra Point Office Project; Don Little, Don Little Group applicant; Sierra Point LLC, owner; APN 007-165-020

Background:

In 2008, the City granted land use approvals for development of an office project on the vacant land at 3000-3500 Marina Boulevard in Sierra Point. The approvals consisted of a design permit, use permit, variance, and tentative parcel map approval. In 2011, the applicant applied for extension of the zoning approvals and these applications were denied by the Planning Commission. The applicant then filed an appeal to the City Council and on August 1, 2011, the Council adopted Resolution No. 2011-40 reversing the decision of the Planning Commission and granting the extensions. As part of the appeal process, the applicant offered to construct the project in accordance with the LEED Gold standard and in exchange for this added environmental benefit, the Council indicated its willingness to enter into a development agreement providing for extended expiration dates on all of the land use approvals. The proposed Development Agreement represents the implementation of this understanding between the applicant and the City Council.

Development Agreements are authorized by State law and represent contracts voluntarily negotiated between the developer and the City. The main benefit to the developer is that vested rights to proceed with the approved project are granted and the approvals would not be affected by subsequent changes in the City's land use policies as reflected in the General Plan or Zoning Regulations. In addition, the land use approvals can be given a longer effective period equal to the term of the development agreement - as being done in this case. In return for the additional rights granted by the development agreement, the City receives certain benefits that are negotiated with the developer, typically of a kind that could not be imposed as part of the normal development approval process. In this case, the City is receiving a project built to an environmental standard beyond that which would be required under the City's Green Building Ordinance or any other applicable building regulations.

This situation is rather unusual since the project itself has already been approved by the City Council and has received a full environmental analysis under CEQA. Consequently, the various land development approvals are not being re-visited by the

Planning Commission. The proposed development agreement will incorporate all of the approvals as previously granted and none of these approvals will be modified, with the important exception of the requirement to comply with the LEED Gold standard. The other modification to the existing approvals provided by the development agreement will be to extend the expiration date of such approvals for a term of 10 years from the Effective Date of the agreement (which will be the date on which the ordinance is adopted by the City Council).

Recommendation:

Adopt Resolution No. DA-1-11 recommending to the City Council that the proposed "Ordinance Approving A Development Agreement For Assessor's Parcel No. 007-165-020" be adopted.

Environmental Determination:

The environmental determination for this project has been completed with approval of a Mitigated Negative Declaration. A copy of the Mitigation Monitoring Report is included in the packet. The development agreement will not result in any changes to the project that would create an adverse environmental impact. On the contrary, the upgrade to LEED Gold will further mitigate the impacts of the project.

Applicable Regulations:

Development agreements are authorized and governed by Sections 65864 *et seq.* of the California Government Code. In addition to these state laws, procedures and requirements for consideration and adoption of development agreements have been established by the Brisbane City Council, as set forth in Resolution No. 88-10 adopted on April 25, 1988. A copy of this Resolution is included in the packet for your reference.

Analysis and Findings:

Part 2 of Resolution 88-10, paragraph 2, states that "The Planning Commission shall not recommend approval unless it finds the provisions of the [development] agreement are consistent with the General Plan and any applicable specific plans."

The project complies with this finding. The uses currently permitted pursuant to the Development Agreement are consistent with the General Plan. The existing General Plan also anticipates build-out of Sierra Point pursuant to the approved Site and Architectural Design Guidelines. The proposed Development Agreement does not alter the currently approved land uses, nor does it modify the approved design guidelines. Continued build-out of the site in accordance with prior approvals would be consistent with the General Plan.

It should also be noted that the proposed Development Agreement does not modify any of the land use approvals for this project previously granted by the City, which already include a finding and determination that the project is consistent with the Brisbane

General Plan. The proposed Development Agreement will simply grant the developer the vested right to proceed with the project in accordance with such approvals, subject only to compliance with the LEED Gold standard.

Attachments:

- (a) Proposed Ordinance Approving Development Agreement with proposed Development Agreement attached as Exhibit "A"
- (b) Draft Planning Commission Resolution No. DA-1-11
- (c) Approved Mitigation Monitoring and Reporting Program
- (d) City Council Resolution 88-10, establishing procedures and requirements for the consideration and adoption of development agreements.

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY OF BRISBANE APPROVING A DEVELOPMENT AGREEMENT FOR ASSESSOR'S PARCEL NUMBER 007-165-020 (Sierra Point Office Project)

WHEREAS, Section 65864 *et. seq.* of the California Government Code and Resolution No. 88-10 adopted by the Brisbane City Council authorize the City to enter into a development agreement with any person having a legal or equitable interest in real property for the development of that property; and

WHEREAS, SIERRA POINT, LLC, a California limited liability company ("Developer") is the owner of vacant land located on the northwesterly side of Marina Boulevard, easterly of Highway 101, in the City of Brisbane, County of San Mateo, State of California, identified as Assessor's Parcel Number 007-165-020 ("the Property"); and

WHEREAS, the City of Brisbane ("City") has granted land use approvals for development of an office project on the Property, consisting of approximately 438,104 square feet of office space in two buildings (8 and 10 stories), a 5-level 1,175 space parking structure, and 211 surface parking spaces ("the Project"), such approvals being identified as Design Permit DP-5-07 (as extended by DP-2-11), Use Permit UP-3-08 (as extended by UP-7-11), Variance V-1-08 (as extended by V-2-11), and Tentative Parcel Map TPM-1-08; and

WHEREAS, a proposed Development Agreement for the Project has been prepared and notice of the City's intention to consider adoption of such agreement was given in accordance with the requirements of California Government Code Section 65867; and

WHEREAS, pursuant to the California Environmental Quality Act, the City approved a Mitigated Negative Declaration for the Project, determining that all of the potential adverse environmental impacts associated with the Project either were less than significant or would be reduced to less than significant levels after mitigation; and

WHEREAS, on _____, following the conduct of a duly noticed public hearing, the Brisbane Planning Commission adopted Resolution No. _____ recommending to the City Council that the draft development agreement be adopted; and

WHEREAS, the proposed Development Agreement between the City and Developer was presented to the City Council for consideration, a copy of which is attached hereto as Exhibit "A" and incorporated herein by reference; and

WHEREAS, on _____, the City Council conducted a duly noticed public hearing on the proposed Development Agreement, at which time any person interested in the matter was given an opportunity to be heard; and

WHEREAS, the City Council has considered the staff reports, the minutes, proceedings and recommendations of the Planning Commission, and the oral and

documentary evidence presented at the public hearing and has determined that it would be in the best interest of the City to enact the Development Agreement,

NOW, THEREFORE, the City Council of the City of Brisbane hereby ordains as follows:

SECTION 1: The City Council finds that entering into the Development Agreement with Sierra Point, LLC, in the form attached hereto as Exhibit A, is consistent with the Brisbane General Plan and the Brisbane Zoning Ordinance and will provide substantial public benefits beyond the exactions for public improvements that would be required under the normal development review process.

SECTION 2: The City Council further finds that the environmental impacts of the Project have been fully and completely analyzed in the Mitigated Negative Declaration prepared for the Project, and the City Council has considered and approved the Mitigated Negative Declaration before approving the Development Agreement.

SECTION 3: The Development Agreement attached hereto as Exhibit A is hereby enacted and adopted.

SECTION 4: The City Council hereby authorizes and directs the Mayor to execute the Development Agreement for and on behalf of the City.

SECTION 5: This ordinance shall take effect thirty (30) days from the date of its adoption.

The above and foregoing Ordinance was regularly introduced and after the waiting time required by law, was thereafter passed and adopted at a regular meeting of the City Council of the City of Brisbane held on the _____ day of _____, 20__, by the following vote:

- AYES:
- NOES:
- ABSENT:
- ABSTAIN:

DEVELOPMENT AGREEMENT

THIS DEVELOPMENT AGREEMENT, dated _____, 20__ pursuant to Section 2.1 of this Agreement, is entered into by and between the CITY OF BRISBANE, a municipal corporation ("City"), and SIERRA POINT, LLC, a California limited liability company ("**Developer**") pursuant to Sections 65864 *et seq.* of the California Government Code and City's police powers. City and Developer are, from time to time, hereinafter referred to individually as a "Party" and collectively as the "Parties."

RECITALS:

This Agreement is entered into on the basis of the following facts, understandings and intentions of the Parties:

A. The Brisbane City Council has adopted Resolution No. 88-10 establishing procedures and requirements for the consideration of development agreements pursuant to California Government Code Section 65864 *et seq.* (the "**Development Agreement Procedures**").

B. The real property that is the subject of this Agreement consists of approximately 8.9 acres of vacant land located at 3000-3500 Marina Boulevard, in the City of Brisbane, County of San Mateo, State of California, identified as Assessor's Parcel Number 007-165-020, and more particularly described in **Exhibit "A"** attached hereto and made a part hereof (the "**Property**" or "**Project Site**").

C. The Property constitutes a part of the Redevelopment Area commonly known as Sierra Point and is subject to the provisions of the Combined Site and Architectural Design Guidelines (the "**Design Guidelines**"), being a master plan for development of the entire Sierra Point area.

D. On May 4, 2009, the Brisbane City Council adopted Resolution No. 2009-14, granting land use approvals for development of an office project on the Property, consisting of approximately 438,104 square feet of office space in two buildings (8 and 10 stories), a 5-level 1,175 space parking structure, and 211 surface parking spaces, such approvals being

identified as Design Permit DP-5-07, Use Permit UP-3-08, Variance V-1-08, and Tentative Parcel Map TPM-1-08. The configuration of the Project is generally shown on the Site Plan attached hereto as **Exhibit "B"** and made a part hereof.

E. The Tentative Parcel Map was scheduled to expire on or about May 4, 2011, but was automatically extended for an additional two years by the enactment of Government Code Section 66452.22, and is now scheduled to expire on or about May 4, 2013, unless further extended. The Use Permit, Variance and Design Permit were scheduled to expire on May 4, 2011. As a result, Developer applied for extensions of the Design Permit, the Use Permit, and the Variance, such applications being identified as Design Permit DP-2-11, Use Permit UP-7-11 and Variance V-2-11. Following a denial of the extension applications by the Brisbane Planning Commission, Developer filed a timely appeal from this decision to the Brisbane City Council.

F. On July 18, 2011, the Brisbane City Council conducted a hearing on the appeal and following the conclusion thereof, on August 1, 2011, the City Council adopted Resolution 2011-40 granting the appeal and approving an extension of the Design Permit, the Use Permit and the Variance, with certain understandings between the parties. Developer agreed to construct the Project in accordance with LEED Gold standards, and the City Council agreed to negotiate a development agreement with Developer providing for further extension of all the existing and subsequent approvals for a period of time not exceeding ten (10) years from the effective date of such development agreement. This Agreement is the development agreement contemplated by the Parties.

G. Notice of City's intention to consider adoption of this Agreement has been given in accordance with the requirements of California Government Code Section 65867.

H. On _____, after consideration of the staff report and all other documentary and oral evidence submitted at a duly noticed public hearing pursuant to the Development Agreement Procedures and state law, the Planning Commission found and determined that this Agreement is consistent with the objectives, policies, land uses and programs specified in the Brisbane General Plan, is compatible with the uses authorized in and the regulations prescribed for the Sierra Point Commercial District; is in conformity with and will promote public convenience, general welfare and good land use practices; will not adversely affect the orderly development of property or the preservation of property values within the City and will promote the same; and will promote and encourage the development of the Project by providing a greater degree of requisite certainty with respect thereto. The Planning Commission thereupon recommended to the City Council that Ordinance No. _____ approving this Development Agreement be adopted.

I. On _____, the City Council held duly noticed public hearing on this Agreement, and following the conclusion thereof, the City Council accepted the findings and recommendations of the Planning Commission and determined that this Agreement is consistent with the General Plan. Accordingly, on _____, the City Council introduced the Enacting Ordinance and thereafter, on _____, the City Council adopted the Enacting Ordinance approving this Agreement.

AGREEMENT

NOW THEREFORE, in consideration of the mutual covenants contained in this Agreement, the Parties agree as follows:

SECTION 1. DEFINITIONS.

As used herein, the following capitalized terms shall have the meanings set forth below, unless the context requires otherwise:

- 1.1. **Agreement** means this Development Agreement.
- 1.2. **Applicable Law** shall have the meaning set forth in Section 3.1 of this Agreement.
- 1.3. **City** means the City of Brisbane
- 1.4. **City Council** means the City Council of the City of Brisbane.
- 1.5. **Conditions of Approval** shall have the meaning set forth in Section 1.12 of this Agreement.
- 1.6. **Consistent New City Law(s)** shall have the meaning set forth in Section 4.1 of this Agreement.
- 1.7. **Construction Standards** means the building, mechanical, plumbing, electrical, fire, health, safety, and environmental codes, standards and specifications adopted by the City or otherwise made applicable to construction projects within the City under any federal, state or local statute, ordinance, rule or regulation in effect at any time during the term of this Agreement, including those Construction Standards adopted after the Effective Date of this Agreement. The term "Construction Standards" also includes the most recent version of the LEED Gold standard in effect as of the time Developer submits an application for a building permit to construct any portion of the Project.
- 1.8. **Design Guidelines** shall have the meaning set forth in Recital Paragraph C of this Agreement.
- 1.9. **Developer** means SIERRA POINT, LLC, a California limited liability company and those successors in interest (Transferees, etc.) set forth in Section 7 of this Agreement.
- 1.10. **Development Agreement Procedures** shall have the meaning set forth in Recital Paragraph A of this Agreement.
- 1.11. **Enacting Ordinance** means Ordinance No. _____, adopted by City Council on _____, approving this Agreement. This Agreement shall constitute a part of the Enacting Ordinance as if incorporated therein in full.

1.12. Event of Default means the failure or unreasonable delay by either party to perform any term, provision or condition of this Agreement as set forth in Section 12.1 of this Agreement.

1.13. Existing Approvals for the Project consist of the following (and their Conditions of Approval):

- (a) The Mitigated Negative Declaration, including the Water Supply Assessment and the Mitigation Monitoring and Reporting Program;
- (b) Tentative Parcel Map TPM-1-08.
- (c) Design Permit DP-5-07/DP-2-11.
- (d) Use Permit UP-3-08/UP-7-11.
- (e) Variance V-1-08/V-2-11.

The Conditions of Approval to the Existing Approvals consist of the Conditions of Approval for Tentative Parcel Map TPM-1-08, attached as Exhibit "A" to Planning Commission Resolution No. TPM-1-08, adopted on February 26, 2009, as ratified and approved by the City Council in Resolution No. 2009-14, adopted on May 4, 2009; and the Conditions of Approval for Design Permit DP-5-07/DP-2-11, Use Permit UP-3-08/UP-7-11 and Variance V-1-08/V-2-11, attached as Exhibit "A" to City Council Resolution No. 2011-11 adopted on August 1, 2011.

1.14. General Plan means the General Plan of the City of Brisbane, including text and maps

1.15. Governing Ordinances means the Ordinances in effect as of the Effective Date specified in Section 2.1 of this Agreement.

1.16. Land Use Term means the term of this Agreement as specified in Section 2.2 below.

1.17. Laws means the constitutions and laws of the State of California and the United States and any codes, statutes or executive mandates or any court decision, state, federal or local thereunder.

1.18. LEED means Leadership in Energy and Environmental Design.

1.19. Ordinances means the ordinances, resolutions, and official policies of the City, governing the permitted uses of land and the density, intensity, rate and timing of development, including the City's General Plan, Zoning Ordinance, and the Design Guidelines. Ordinances do not include Construction Standards.

1.20. Planning Commission means the Planning Commission of the City of Brisbane.

1.21. Project means the improvements to the Project Site and associated off-site improvements, as generally described in Paragraph D of the Recitals to this Agreement and depicted in the development plans either on file or to be filed by Developer, subject to any modifications or amendments that may be agreed upon by City and Developer pursuant to Section 8 of this Agreement or required or permitted by the Applicable Law.

1.22. Project Approvals refers collectively to the Existing Approvals and the Subsequent Project Approvals (as defined in Section 3.3).

1.23. Property or Project Site shall have the meaning set forth in Recital Paragraph B of this Agreement.

1.24. Subsequent Project Approvals means all Project Approvals that may be issued by City after the Effective Date of this Agreement, as defined in Section 3.3.

SECTION 2. EFFECTIVE DATE; LAND USE TERM.

2.1. Effective Date; Recordation. This Agreement shall be dated and the obligations of Developer and City hereunder shall be effective as of _____ ("Effective Date"). City and Developer shall execute and acknowledge this Agreement, and thereafter the City Clerk shall cause this Agreement, including all Exhibits hereto, to be recorded in the Official Records of the County of San Mateo, State of California.

2.2. Land Use Term. The term of this Agreement shall commence on the Effective Date and shall expire ten (10) years thereafter, subject to the provisions of Sections 6 and 8.2 of this Agreement, unless sooner terminated or extended as hereinafter provided. Notwithstanding any provisions to the contrary that may be contained in the City's Subdivision or Zoning Ordinances, the Project Approvals shall remain in full force and effect during the Land Use Term of this Agreement and any extensions thereof.

2.3. Extensions Under State Law. In the event any or all of the Project Approvals are extended beyond the term of this Agreement pursuant to any automatic extensions granted by a State Law enacted subsequent to the Effective Date of this Agreement, the extended expiration date provided by State Law shall be controlling.

SECTION 3. GENERAL DEVELOPMENT OF THE PROJECT.

3.1. Vested Right to Develop the Project. Developer shall have the vested right to develop the Project on the Project Site in accordance with the terms and conditions of this Agreement, the Governing Ordinances, the Project Approvals (including their Conditions of Approval), Consistent New City Law(s) (as defined in Section 4.1 of this Agreement), and the applicable Construction Standards (collectively, the "Applicable Law"). City shall have the right to regulate development and use of the Project Site in accordance

with the Applicable Law. The Applicable Law shall control the overall design, development and construction of the Project, all on-site and off-site improvements and the issuance of Subsequent Project Approvals.

3.2 Compliance with LEED Gold Standard. In addition to the renewable energy measures described in Paragraph "U" of the Conditions of Approval, Developer agrees to construct the Project in compliance with the most recent version of the LEED Gold standard in effect as of the time Developer submits the first application for a building permit for any portion of the Project. In all other respects, the development of the Project shall be governed by the City's Green Building Ordinance as set forth in Chapter 15.80 of the Brisbane Municipal Code.

3.3. Subsequent Project Approvals. Developer shall submit applications for any and all Subsequent Project Approvals as necessary to develop the Project, subject to the City's discretionary police powers to issue such Subsequent Project Approvals. Upon submission by Developer of any application and upon the determination by City that such application is complete, City shall promptly commence and diligently complete all steps necessary to review and process the requested Subsequent Project Approvals subject to the Applicable Law and all Laws. Notwithstanding the foregoing, City is not obligated to issue any permit or a Certificate of Occupancy for any portion of the Project unless and until all fees and charges due and payable for that phase have been received by City and all other applicable requirements set forth in the Applicable Law for that phase have been satisfied.

- (a) Subsequent Project Approvals contemplated for the Project include:
 - (1) Any required permits from agencies other than City.
 - (2) Grading and Building Permits.
 - (3) Certificates of Occupancy.
- (b) The parties acknowledge that development of the Project will require issuance of all Subsequent Project Approvals, including, without limitation, those listed under (a) above. Notwithstanding any other provision in this Agreement, City retains the discretion to formulate conditions of approval for all Subsequent Project Approvals for the Project, as long as such conditions of approval are consistent with the Applicable Law.

3.4. Environmental Review. The environmental review for the Project has been completed.

3.5. Other Governmental Permits. Developer shall apply for such other permits and approvals as may be required by City and other governmental or quasi-governmental agencies having jurisdiction over the Project as may be required for the development of, or provision of services to, the Project. Developer will be responsible for obtaining such other permits and approvals and payment of all costs and expenses that may be incurred in connection therewith. City will cooperate with Developer, at no cost to City, in Developer's efforts to obtain such permits and approvals and City shall, from time to time (at the request of Developer), seek to enter into binding agreements with any such

other entity as may be necessary to ensure the timely availability of such permits and approvals to Developer, provided such permits and approvals are mutually determined by City and Developer to be reasonably necessary or desirable, and are consistent with the Applicable Law. In the event that any such permit or approval is not obtained within three (3) months from the date application is deemed complete by the appropriate entity, and such circumstance materially deprives Developer of the ability to proceed with development of the Property or any portion thereof, or materially deprives City of a bargained-for public benefit of this Agreement, then, in such case, and at the election of Developer or City, Developer and City shall meet and confer with the objective of attempting to mutually agree on alternatives, Subsequent Project Approvals, and/or an amendment to this Agreement to allow the development of the Project to proceed with each Party substantially realizing its bargained-for benefit therefrom.

3.6. Liability Insurance and Workers Compensation Insurance. Prior to the commencement of construction (or any work related thereto) upon the Project Site or on any off-site public improvements by Developer or its agents or contractors, Developer shall furnish, or cause to be furnished, to City duplicate originals or appropriate certificates of comprehensive general liability insurance policies in the amount of at least \$2,000,000 for any occurrence, naming City, its officials, officers, employees and volunteers as additional insureds. Such insurance policies shall comply with City's "Insurance Requirements For Developers" attached hereto as **Exhibit "C"** and made a part hereof. Developer shall maintain and keep in force such insurance coverage for the term of this Agreement.

Developer shall maintain Workers' Compensation insurance for all persons employed by Developer for work at the site or for work performed pursuant to this Agreement. Developer shall require each contractor and subcontractor similarly to provide Workers' Compensation insurance for its respective employees. Developer agrees to indemnify City for any damage resulting from Developer's failure to maintain any such insurance.

SECTION 4. SPECIFIC CRITERIA APPLICABLE TO DEVELOPMENT OF THE PROJECT.

4.1. Applicable Ordinances and Approvals. Developer shall have the right to proceed with development of the Project in compliance with the Applicable Law, subject to the following:

(a) During the term of this Agreement, City may, in subsequent actions applicable to the Project Site or the Property, apply new or modified Ordinances, resolutions, rules, regulations and official policies that were not in force as of the Effective Date of this Agreement and which are not in conflict with the Applicable Law ("Consistent New City Law(s)"). Such Consistent New City Law(s) shall be considered to conflict with the Applicable Law if they:

(1) Limit or reduce the density or intensity of all or any part of the Project, or otherwise require any reduction in the square footage or total number of proposed buildings;

- (2) Limit the timing, rate of development or phasing of the Project;
- (3) Limit the improvements on the Project Site in a manner which is inconsistent with or more restrictive than the limitations included in this Agreement;
- (4) Apply to the Project or the Project Site any law, regulation, or rule otherwise allowed by this Agreement which is not uniformly applied on a city-wide basis in a manner which does not discriminate against Developer; or
- (5) Impose upon Developer any obligation to construct or to fund the construction of public improvements beyond the obligations imposed by the Applicable Law.

The above list of actions is not intended to be comprehensive, but is illustrative of the types of actions that would conflict with the Applicable Law. Without limiting the foregoing, no moratorium, slow growth, or other limitation affecting use permits, building permits or other land use entitlements, or the rate, timing or sequencing thereof that is inconsistent with the Applicable Law shall apply to the Project or the Project Approvals. Except for the Construction Standards governing construction, building, fire, plumbing, electrical and life safety, no amendment of the Governing Ordinances or new Ordinance, rule, regulation or policy which is inconsistent with the terms of the Governing Ordinances, or which is inconsistent with the Applicable Law, shall apply to the Project or the Project Site.

- (b) Notwithstanding anything in this Agreement to the contrary, City may apply the then-current Construction Standards, green building standards (provided such standards do not exceed the requirements of the LEED Gold standard), and other uniform construction codes to any Subsequent Project Approval provided such standards are applied on a city-wide basis in a manner which does not discriminate against Developer. Nothing in this Agreement shall prevent City from denying or conditionally approving any Subsequent Project Approval on the basis of Consistent New City Law(s).
- (c) If City believes that it has the right under this Agreement to impose/apply a Consistent New City Law on the Property/Project, it shall send written notice to Developer of that City position ("Notice of New City Law(s)"). Such Notice of New City Law(s) shall contain the following sentence somewhere in its text: "This is a Notice of New City Law(s) provided pursuant to Section 4.1(c) of the Sierra Point Development Agreement." Upon receipt of the Notice of New City Law, if Developer believes that such New City Law is in conflict with the Applicable Law, Developer may send written notice to City within twenty (20) days of Developer's receipt of City's Notice of New Law ("Objection to New City Law(s)"). If no Objection to New City Law(s) is received by City within such period of time, Developer shall be deemed to have acknowledged that no conflict exists.

In the event Developer sends a timely notice to City of its Objection to New City Law(s), such notice shall set forth the factual and legal reasons why Developer believes City cannot apply the New City Law(s) to the Property. City shall respond to Developer's Objection to New City Law(s) ("City Response") within thirty (30) days of receipt of said Developer Objection to New City Law(s). Thereafter, the Parties shall meet and confer within twenty (20) days of the date of Developer's receipt of the City Response and shall continue to meet over the next thirty (30) days ("Meet and Confer Period") with the objective of arriving at a mutually acceptable solution to this disagreement. The New City Law(s) shall not be applied to the Property until the dispute over the applicability of the New City Law(s) is resolved. Within fifteen (15) days of the conclusion of the Meet and Confer Period, City shall make its determination, and shall send written notice to Developer of that City determination. If City determines to impose/apply the New City Law(s) to the Property in question, then Developer shall have a period of thirty (30) days from the date of receipt of such City determination within which to file legal action challenging such City action. In other words, a 30-day statute of limitations regarding Developer's right to judicial review of the New City Law(s) shall commence upon Developer's receipt of City's determination (following the above-described process). If upon conclusion of judicial review of the New City Law(s) (at the highest judicial level sought and granted), the reviewing court determines that Developer is not subject to the New City Law(s), such New City Law(s) shall cease to be a part of the Applicable Law, and City shall return Developer to the position Developer was in prior to City's application of such New City Law(s) (e.g., City return fees, return dedications, etc.).

Any of the time limits set forth in this Subsection 4.1(c) may be extended by mutual agreement of the Parties and consistent with good faith and fair and expeditious dealing between the Parties as described in Section 14.1.

4.2. Construction Related Representatives. Representatives of City shall have the reasonable right of access to the Project Site, at normal construction hours during the period of construction for the purposes of this Agreement or any other purpose authorized by any applicable Law, including, but not limited to, the inspection of the work being performed in constructing the improvements.

4.3 Exactions. As a material part of the consideration for this Agreement, Developer shall not be subject to future exactions and other obligations established by the City after the date of this Agreement that otherwise might be imposed on a discretionary basis as conditions to granting land use permits and approvals. Therefore, the Applicable Law fully sets forth all of Developer's obligations pertaining to the exactions and other obligations for the Project Approvals over which the City has control. Developer's performance of its obligations under this Agreement shall fully satisfy all present and future requirements of City for exactions and other obligations that could be required for the Project Approvals and City shall not require from Developer any additional exactions and other obligations for granting such Project Approvals.

4.4 Subsequently Enacted or Revised Fees, Assessments and Taxes.

- (a) **Revised or Newly Adopted Fees.** Any existing application, processing, and inspection fees that are revised during the term of this Agreement, and application, processing and inspection fees that are newly adopted during the term of this Agreement, shall apply to the Project and the Property provided that: (i) such fees have general applicability on a city-wide basis and do not discriminate against Developer; (ii) the application of such fees to the Project and the Property is prospective; and (iii) the application of such fees would not prevent development of the Project in accordance with the Applicable Law.
- (b) **Increased or New Taxes.** Except for taxes solely imposed on new development, any subsequently increased or newly enacted city-wide taxes shall apply to the Project and the Property provided that: (i) such taxes have general applicability on a city-wide basis and do not discriminate against Developer; (ii) the application of such taxes to the Project and the Property is prospective; and (iii) the application of such taxes would not prevent development of the Project in accordance with the Applicable Law.
- (c) **Assessments.** Nothing in this Agreement shall be construed to relieve the Property from assessments levied against it by the City pursuant to any statutory procedure for the assessment of property to pay for infrastructure and services which benefit the Property.
- (d) **Right to Contest.** Nothing in the Agreement shall prevent Developer from paying any fee, tax or assessment under protest, or otherwise asserting its legal rights to protest or contest any fee, tax or assessment charged or levied against the Project or the Property.

SECTION 5. PERIODIC REVIEW OF COMPLIANCE.

5.1. Annual Review.

- (a) **Review Date.** The annual review date for this Agreement shall be on the first day of the month following the anniversary of the Effective Date, or as reasonably soon thereafter as the matter can be placed on the agenda of the City Council.
- (b) **Initiation of Review.** The City's Community Development Director shall initiate the annual review by giving to Developer thirty (30) days' written notice that the City intends to undertake such review. The notice shall specify the date on which a public hearing on the annual review shall be conducted by the City Council, as required by Section 604 of the Development Agreement Procedures. Developer shall provide evidence to the Community Development Director prior to the hearing on the annual review to

demonstrate good faith compliance with the provisions of the Agreement as provided in Government Code §§ 65864 *et seq.*

- (c) **Staff Reports.** To the extent practical, City shall deposit in the mail and fax to Developer a copy of all staff reports, and related exhibits concerning contract performance at least five (5) days prior to the hearing on the annual review.

5.2. Notice of Compliance. With respect to each year for which an annual review of compliance with this Agreement is conducted and where pursuant to Section 5.1 of this Agreement City determines Developer to be in compliance, City, upon request of Developer, shall provide Developer with a written certificate of compliance, in recordable form, duly executed and acknowledged by City ("Notice of Compliance"). Developer shall have the right, in Developer' sole discretion, to record any Notice of Compliance.

5.3 Remedies for Noncompliance. If the City Council finds and determines, on the basis of substantial evidence, that Developer has not complied with the terms and conditions of this Agreement during the period under review, and Developer has been notified of such default and given an opportunity to cure in accordance with the provisions of Section 12.1 of this Agreement, the City Council may modify or terminate this Agreement, as authorized by California Government Code Section 65865.1.

5.4 Fee For Annual Review. The fee for City's annual review shall be paid by Developer and shall not exceed the costs of City staff time and expenses at the customary rates then in effect.

SECTION 6. PERMITTED DELAYS; SUPERSEDURE BY SUBSEQUENT LAWS.

6.1. Permitted Delays. In addition to any specific provisions of this Agreement, performance by any party of its obligations hereunder may be excused during any period of delay caused at any time by reason of (i) war or civil commotion, riots, strikes, picketing, or other labor disputes; (ii) unavoidable shortage of materials or supplies, (iii) damage to work in process by reason of fire, rains, floods, earthquake, or other acts of God; (iv) restrictions or delays imposed or mandated by governmental or quasi-governmental entities; (v) enactment of conflicting Laws (including, without limitation, new or supplementary environmental regulations); (vi) litigation initiated by a nonparty challenging this Agreement, any Project Approval, or the sufficiency of environmental review under CEQA; or (vii) failure of nonparty agencies to promptly process and grant a Project Application through no fault of Developer. Each party shall promptly notify the other party of any delay hereunder as soon as possible after the same has been ascertained. The deadlines set forth herein shall be extended by the period of any delay hereunder; provided, however, any extensions of time for the performance by Developer of its obligations hereunder is subject to review and approval by the City, which approval shall not be unreasonably withheld.

6.2. Supersedure by Subsequent Laws. If any Law made or enacted after the date of this Agreement prevents or precludes compliance with one or more provisions of this Agreement, then the provisions of this Agreement shall, to the extent feasible, be modified or suspended as may be necessary to comply with such new Law. Immediately after

enactment of any such new Law, the Parties shall meet in good faith to determine the feasibility of any such modification or suspension based on the effect such modification or suspension would have on the purposes and intent of this Agreement. If such modification or suspension is infeasible in Developer's reasonable business judgment, then Developer shall have the right to terminate this Agreement by written notice to the City. If the duration of the period during which such new Law precludes compliance with the provisions of this Agreement (such period, a "Moratorium Period") is less than or equal to one-half (1/2) of the remaining Land Use Term, then, at the Developer's election, the Land Use Term may be extended for the length of such Moratorium Period. If the Moratorium Period is more than one-half (1/2) of the remaining Land Use Term, then, at Developer's election and subject to approval by the City Council, the Land Use Term of this Agreement may be extended pursuant to Section 6.1 for the duration of the period during which such new Law precludes compliance with the provisions of this Agreement. In addition, Developer shall have the right to challenge the new Law preventing compliance with the terms of this Agreement, and, during the period of such challenge, in the event such challenge is successful, this Agreement shall remain unmodified and in full force and effect, except that the Land Use Term may be extended by the period of such challenge pursuant to Section 6.1 above.

SECTION 7. TRANSFERS AND ASSIGNMENTS.

7.1. Right to Assign. Developer may at any time, upon notice to City but without the necessity of any approval by the City, sell, transfer or assign all or a portion of the Property to third parties (each such other developer is referred to as a "Transferee"), including an assignment to such Transferee of any or all rights, interests and obligations of the Developer hereunder that pertain to the Property or portion of the Property being sold or transferred to such Transferee. In addition, Developer may at any time, upon notice to City but without the necessity of any approval by the City, transfer the Property or any part thereof and all or any part of Developer's rights, interests and obligations hereunder to: (i) any subsidiary, affiliate, parent or other entity which controls, is controlled by or is under common control with Developer, or (ii) any member of Developer or any subsidiary, parent or affiliate of any such member, or (iii) any successor or successors to Developer by merger, acquisition, consolidation, non-bankruptcy reorganization or government action.

7.2 Effect of Sale, Transfer or Assignment. Developer shall be released from any obligations hereunder sold, transferred or assigned to a Transferee pursuant to Section 7.1 of this Agreement, provided that such obligations are expressly assumed by Transferee and Transferee shall agree in writing to be subject to all the terms and conditions of this Agreement. A default by any Transferee shall only affect that portion of the Property/Project owned by such Transferee and shall not cancel or diminish in any way Developer's rights hereunder with respect to the portion of the Property/Project not owned by such Transferee.

7.3 Permitted Transfer, Purchase or Assignment. The sale or other transfer of any interest in the Property to a lender ("Lender") as a result of a foreclosure or deed in lieu of foreclosure under a deed of trust encumbering the Property, and the subsequent transfer by the Lender to a purchaser ("Purchaser") shall not require the City's approval pursuant to the provision of Section 7.1; *provided, however,* subject to Section 11 of this

Agreement, the Lender and any subsequent Purchaser shall take the Property subject to all of the provisions of this Agreement. In no event shall any such Lender or Purchaser be entitled to a building permit, occupancy certificate, or any other permit or approval by the City until all defaults under this Agreement relating to the portion of the Property acquired by such Lender or Purchaser have been cured.

SECTION 8. AMENDMENT AND TERMINATION.

8.1. In General. Except as provided in Section 12.1 relating to termination in the Event of Default, this Agreement may be canceled, modified or amended only by mutual written consent of the parties.

8.2. Major Amendment. Any amendment to this Agreement which relates to the Land Use Term, permitted uses, density or intensity of use, maximum height or maximum dimensions of buildings, requirements for acquisition, reservation or dedication of land for public improvements, the timing or nature of the infrastructure improvements, or which causes a significant environmental impact which is not adequately mitigated, shall be deemed a "Major Amendment" and shall require the same procedure as followed for the initial approval of this Agreement. Notwithstanding the foregoing: (i) Developer shall have the right to amend and revise its architectural plans for the Project subject to City's adopted procedure for amendment of Design Permits; and (ii) no amendment of this Agreement shall be required in connection with City processing and approval of any Subsequent Project Approval.

8.3. Recordation of Amendment. The City shall record an appropriate notice of any Major Amendment, cancellation or termination of this Agreement with the San Mateo County Recorder not later than ten (10) days after the City's action on such amendment, cancellation or termination becomes final. The notice shall be accompanied by a legal description of the Property.

SECTION 9. NOTICES.

9.1. Procedure. Any notice or communication required pursuant to this Agreement by any party ("Notices") shall be in writing and shall be given either personally, by facsimile transmission, by Federal Express or other similar courier promising overnight delivery, or by regular U. S. mail.

(a) If given by Federal Express or similar courier, the Notice shall be deemed to have been given and received on the date delivered as shown on a receipt issued by the courier.

(b) If personally delivered, a Notice shall be deemed to have been given when actually delivered to the party to whom it is addressed.

(c) If delivered by facsimile transmission, a Notice shall be deemed to have been given upon receipt of the entire document by the receiving party's facsimile machine as shown by the transmission report issued by the transmitting facsimile machine. Notice

transmitted after 5:00 p.m. or on Saturday or Sunday shall be deemed to have been given on the next business day.

(d) If delivered by regular U. S. mail, a Notice shall be deemed to have been given three (3) business days after deposit with the U. S. Postal Service. Notices shall be given to the parties at their addresses set forth below:

Either party may change its mailing address at any time by giving written notice of such change to the other party in the manner provided herein at least ten (10) days prior to the date such change is effected.

9.2. Form and Effect of Notice. Every Notice (other than the giving or withholding of consent, approval or satisfaction under this Agreement but including requests therefor) given to a party shall comply with the following requirements. Each such Notice shall state: (i) the Section of this Agreement pursuant to which the Notice is given; and (ii) the period of time within which the recipient of the Notice must respond or if no response is required, a statement to that effect. Each request for consent or approval shall contain reasonably sufficient data or documentation to enable the recipient to make an informed decision. In no event shall Notice be deemed given if such Notice did not fully comply with the requirements of this Section. No waiver of this Section shall be inferred or

implied from any act (including conditional approvals, if any) of a party, unless such waiver is in writing, specifying the nature and extent of the waiver.

SECTION 10. ESTOPPEL CERTIFICATE.

Either party may, at any time, and from time to time, request written notice from the other party requesting such party to certify in writing that, (a) this Agreement is in full force and effect and a binding obligation of the parties, (b) this Agreement has not been amended or modified either orally or in writing, or if so amended, identifying the amendments, and (c) to the knowledge of the certifying party the requesting party is not in default in the performance of its obligations under this Agreement, or if in default, to describe therein the nature and amount of any such defaults. A party receiving a request hereunder shall execute and return such certificate within thirty (30) days following the receipt thereof, or such longer period as may reasonably be agreed to by the parties. The City Manager of City shall be authorized to execute any certificate requested by Developer. Should the party receiving the request not execute and return such certificate within the applicable period, this shall not be deemed to be a default, provided that such party shall be deemed to have certified that the statements in clauses (a) through (c) of this Section are true, and any party may rely on such deemed certification.

SECTION 11. MORTGAGEE PROTECTION; CERTAIN RIGHTS OF CURE.

11.1 Mortgagee Protection. This Agreement shall be superior and senior to any lien placed upon the Property, or any portion thereof after the date of recording this Agreement, including the lien for any deed of trust or mortgage ("Mortgage"). Notwithstanding the foregoing, no breach hereof shall defeat, render invalid, diminish or impair the lien of any Mortgage made in good faith and for value, but all the terms and conditions contained in this Agreement shall be binding upon and effective against any person or entity, including any deed of trust beneficiary or mortgagee ("Mortgagee") who acquires title to the Property, or any portion thereof, by foreclosure, trustee's sale, deed in lieu of foreclosure, or otherwise.

11.2 Mortgagee Not Obligated. Notwithstanding the provisions of Section 11.1 above, no Mortgagee shall have any obligation or duty under this Agreement, before or after foreclosure or a deed in lieu of foreclosure, to construct or complete the construction of improvements, or to guarantee such construction or completion, or to pay, perform or provide any fee, dedication, improvements or other exaction or imposition; *provided, however,* that a Mortgagee shall take title to the Property subject to the terms and conditions of this Agreement and shall not be entitled to devote the Property to any uses or to construct any improvements thereon other than those uses or improvements provided for or authorized by the Applicable Law. In no event shall any such Mortgagee be entitled to a building permit, occupancy certificate, or any other permit or approval by City until all defaults under this Agreement relating to the portion of the Property acquired by such Mortgagee have been cured.

11.3 Notice of Default to Mortgagee and Extension of Right to Cure. If City receives notice from a Mortgagee requesting a copy of any notice of default given Developer hereunder and specifying the address for service thereof, then City shall deliver to such Mortgagee, concurrently with service thereon to Developer, any notice given to Developer with respect to any claim by City that Developer have committed an event of default. Each Mortgagee shall have the right during the same period available to Developer to cure or remedy, or to commence to cure or remedy, the event of default claimed set forth in the City's notice. City, through its City Manager, may extend the thirty-day cure period provided in Section 12.1 for not more than an additional sixty (60) days upon request of Developer or a Mortgagee.

SECTION 12. DEFAULT.

12.1. Default; Termination. Failure or unreasonable delay by any party to perform any obligation under this Agreement for a period of sixty (60) days after written notice thereof from the other party shall constitute an "Event of Default" under this Agreement. Said notice shall specify the nature of the alleged default and the manner in which said default may be satisfactorily cured. If the nature of the alleged default is such that it cannot reasonably be cured within such sixty (60) day period, the commencement of the cure within such time period and the subsequent diligent prosecution to completion of the cure shall be deemed a cure within such period. However, no sixty (60) day period of cure shall be required where this Agreement specifies a date by which particular actions must be taken. Subject to the foregoing, after notice and expiration of the sixty (60) day period without cure, if applicable, the non-defaulting party, at its option, may institute legal proceedings pursuant to Section 12.3 of this Agreement or proceedings to terminate this Agreement. If proceedings to terminate this Agreement are initiated by City, such proceedings shall be conducted in accordance with the provisions of Section 702 of the Development Agreement Procedures. The waiver by either party of any Event of Default under this Agreement shall not operate as a waiver of any subsequent breach of the same or any other provision of this Agreement.

12.2. Cooperation in the Event of Third-Party Legal Challenge. In the event of any legal or equitable action or proceeding instituted by a third party challenging the validity of any provision of this Agreement or the procedures leading to its adoption or the issuance of any or all of the Project Approvals, the parties hereby agree to cooperate in defending said action or proceeding. Developer agrees to diligently defend any such action or proceeding and to bear the litigation expenses of defense, including attorneys' fees. City shall have the option to employ independent defense counsel at City's expense.

12.3. Legal Actions; Remedies; Attorney's Fees. In addition to any other rights and remedies, any party may institute legal action to cure, correct or remedy any default, enforce any covenant or agreement herein, enjoin any threatened or attempted violation or enforce by specific performance the obligations and rights of the parties hereto. In no event shall any party or its elected or appointed officials, officers, agents, employees or volunteers be liable in monetary damages for any breach or violation of this Agreement, it being expressly understood and agreed that, in addition to the right of termination, the sole legal or equitable remedy available to a non-defaulting party for a breach or violation of this Agreement by the party in default shall be an action in mandamus, specific

performance, injunctive or declaratory relief to enforce the provisions of this Agreement. In any such legal action, the prevailing party shall be entitled to recover all litigation expenses, including reasonable attorneys' fees and court costs.

12.4. Effect of Termination. Termination of this Agreement shall not affect Developer's obligation to comply with the standards, terms and conditions of any Project Approvals issued with respect to the Project Site or any portion thereof, nor shall it affect any covenants of Developer which are specified in this Agreement to continue after termination or which must remain in effect to achieve their intended purpose, including but not limited to those set forth in Section 13.

SECTION 13 INDEMNIFICATION AND HOLD HARMLESS

Except for claims, costs and liabilities caused by the negligence, willful misconduct, or breach of this Agreement by City, or its elected or appointed officials, officers, agents, employees and volunteers, Developer hereby agrees to defend, indemnify, save and hold City and its elected and appointed officials, officers, agents, employees and volunteers (collectively, the "City Parties") harmless from any and all claims, costs (including reasonable attorneys' fees) and liabilities for any personal injury, death or property damage (collectively, "Claims") which arise, directly or indirectly, as a result of any construction, improvement, operation, or maintenance work performed by Developer or Developer's contractors, subcontractors, agents or employees in connection with the Project (including work on any off-site improvements), whether such activities were performed by Developer or by any of Developer's contractors or subcontractors, or by any one or more persons directly or indirectly employed by, or acting as agent for, Developer or any of Developer's contractors or subcontractors. Except for claims, costs and liabilities caused by the negligence, willful misconduct, or breach of this Agreement by any of the City Parties, Developer shall defend City Parties with counsel reasonably acceptable to City from actions for such personal injury, death or property damage which is caused, or alleged to have been caused, by reason of Developer's activities in connection with the Project. City will defend, indemnify, save and hold harmless Developer and its officers, agents and employees from any and all Claims caused by the negligence, willful misconduct or breach of this Agreement by any of the City Parties. The parties' obligations under this Section 13 shall survive the expiration or earlier termination of this Agreement.

SECTION 14 MISCELLANEOUS PROVISIONS.

14.1. Good Faith and Fair and Expeditious Dealing. In all dealings and transactions between the Parties that may be conducted pursuant to this Agreement and in the performance of their respective duties and obligations under this Agreement, the parties shall act toward each other and execute the tasks necessary or desirable to the processing contemplated by this Agreement in a fair, diligent, best efforts, expeditious and reasonable manner, and neither Party shall take any action that will prohibit, impair, or impede the exercise by the other Party of its rights and obligations secured through this Agreement.

14.2. Negation of Partnership. City and Developer specifically acknowledge that the Project is a private development, that no party is acting as the agent of the other in any respect hereunder, and that each party is an independent contracting entity with respect to the terms, covenants and conditions contained in this Agreement. None of the provisions of this Agreement shall be deemed to create a partnership between or among the parties in the businesses of Developer, or the affairs of City, or otherwise, nor shall it cause them to be considered joint venturers or members of any joint enterprise. This Agreement is not intended nor shall it be construed to create any third party beneficiary rights in any person who is not expressly made a party and signatory to this Agreement.

14.3. Severability. Invalidation of any provision of this Agreement, or of the application thereof to any person, by judgment or court order shall in no way affect any of the other provisions hereof or the application thereof to any other person or circumstances and the same shall remain in full force and effect, unless enforcement of this Agreement as so invalidated would be unreasonable or grossly inequitable under all the circumstances or would frustrate the purposes of this Agreement.

14.4. Entire Agreement. This Agreement and the Exhibits hereto contain all the representations and the entire agreement between the parties with respect to the subject matter hereof. Except as otherwise specified in this Agreement, all prior correspondence, memoranda, agreements, warranties or representations are superseded in total by this Agreement and the Exhibits hereto.

14.5. Further Documents. Each party shall execute and deliver such further documents as may be reasonably necessary to achieve the objectives of this Agreement.

14.6. Governing Law; Interpretation of Agreement. This Agreement shall be governed by and interpreted in accordance with the laws of the United States, the State of California and the City of Brisbane.

14.7. Counterparts. This Agreement may be executed in multiple counterparts, which, when taken together, shall constitute a single document.

14.8. Time of Essence. Time is of the essence of this Agreement and of each and every term and condition hereof.

14.9. Notice of Termination. Upon the expiration or earlier termination of this Agreement, the parties hereto shall, if requested by another party, execute for recordation in the Official Records of San Mateo County, a notice stating that this Agreement has expired or has been terminated, and, if applicable, that the parties have performed all their duties and obligations hereunder.

14.10 Successors and Assigns. Subject to the restriction against assignment, this Agreement shall constitute a covenant running with the land and shall be binding upon and inure to the benefit of the respective heirs, executors, administrators, personal representatives, successors and assigns of the parties.

14.11. Exhibits. The following exhibits are attached to this Agreement and incorporated herein for all purposes:

EXHIBIT C
Insurance Requirements For Developers

The Developer shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Developer, its contractors, agents, representatives, or employees. Unless otherwise expressly approved in writing by the City, such insurance shall conform with the following specifications:

Minimum Scope of Insurance

Coverage shall be at least as broad as:

1. Insurance Services Office Commercial General Liability coverage (occurrence form CG 0001).
2. Insurance Services Office Form Number CA 0001 covering Automobile Liability, code 1 (any auto).
3. Workers' Compensation insurance as required by the State of California and Employer's Liability Insurance.

Minimum Limits of Insurance

The Developer shall maintain limits no less than:

1. General Liability (including operations, products and completed operations): \$2,000,000 per occurrence for bodily injury, personal injury and property damage. If Commercial General Liability Insurance or other form with a general aggregate limit is used, either the general aggregate limit shall apply separately to this project/location or the general aggregate limit shall be twice the required occurrence limit.
2. Automobile Liability: \$2,000,000 per accident for bodily injury and property damage.
3. Employer's Liability: \$2,000,000 per accident for bodily injury or death.

Deductibles and Self-Insured Retentions

Any deductibles or self-insured retentions must be declared to and approved by the City. At the option of the City, either the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the City, its officers, officials, employees and volunteers, or the Developer shall provide a financial guarantee satisfactory to the City guaranteeing payment of losses and related investigations, claim administration and defense expenses.

Other Insurance Provisions

The general liability and automobile liability policies are to contain, or be endorsed to contain, the following provisions:

1. The City, its officers, officials, employees, and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Developer; and with respect to liability arising out of work or operations performed by or on behalf of the Developer including materials, parts or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Developer's or the Developer's contractor's insurance policy, or as a separate owner's policy (CG 20 10 11 85 or its equivalent).
2. For any claims related to this project, the Developer's insurance coverage shall be primary insurance as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Developer's insurance and shall not contribute with it.
3. The Developer's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.
4. Each insurance policy required by this clause shall be endorsed to state that coverage shall not be suspended, voided, cancelled, reduced in coverage or in limits except after fifteen (15) days' prior written notice has been given to the City.

Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise approved by the City.

Verification of Coverage

The Developer shall furnish the City with original certificates of insurance or endorsements evidencing coverage required by these specifications. The certificates or endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. The certificates or endorsements are to be in form and substance satisfactory to the City and shall be received and approved by the City before work commences. At the request of the City, the Developer shall provide complete, certified copies of all required insurance policies, including endorsements effecting the coverage required by these specifications.

RESOLUTION NO. DA-1-11

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF BRISBANE RECOMMENDING TO THE CITY COUNCIL ADOPTION OF AN ORDINANCE APPROVING A DEVELOPMENT AGREEMENT FOR ASSESSOR'S PARCEL NUMBER 007-165-020

WHEREAS, a proposed Ordinance of the City of Brisbane Approving A Development Agreement For Assessor's Parcel Number 007-165-020, with a proposed Development Agreement attached thereto as Exhibit "A", has been presented to the Planning Commission for consideration and recommendation to the City Council; and

WHEREAS, on December 8, 2011, the Planning Commission conducted a public hearing on the proposed ordinance, at which time any person interested in the matter was given an opportunity to be heard; and

WHEREAS, the Planning Commission has found and determined that the proposed Development Agreement between the City of Brisbane and Sierra Point, LLC, pertaining to the office project to be constructed on the site located at 3000-3500 Marina Boulevard, identified as Assessor's Parcel Number 007-165-020, is consistent with the Brisbane General Plan; and

WHEREAS, the Planning Commission has further found and determined that the Development Agreement implements a proposed project for which a Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program were previously adopted by the City on April 20, 2009.

NOW, THEREFORE, BE IT RESOLVED, that the Planning Commission hereby recommends to the Brisbane City Council that the proposed Ordinance approving a Development Agreement for APN 007-165-020 be adopted.

Chairman

I hereby certify that the foregoing Resolution No. DA-1-11 was duly and regularly adopted by the Brisbane Planning Commission at a regular meeting thereof held on December 8, 2011, by the following vote:

AYES:
NOES:
ABSENT:

JOHN SWIECKI
Community Development Director

MITIGATION MONITORING AND REPORTING PROGRAM

This Mitigation Monitoring and Reporting Program (MMRP) was formulated based on the findings of the Initial Study/Mitigated Negative Declaration (IS/MND) prepared for the Opus Office Center Project. This MMRP is in compliance with Section 15097 of the *CEQA Guidelines*, which requires that the Lead Agency “adopt a program for monitoring or reporting on the revisions which it has required in the project and the measures it has imposed to mitigate or avoid significant environmental effects.” The MMRP lists mitigation measures recommended in the IS/MND and identifies mitigation monitoring requirements.

Table 1 presents the mitigation measures identified for the proposed project. Each mitigation measure is numbered according to the topical section to which it pertains in the IS/MND. As an example, Mitigation Measure VIS-1 is the first mitigation measure identified in the IS/MND. The column entitled “Mitigation Responsibility” identifies the party responsible for carrying out the required actions. The columns entitled “Monitoring/Reporting Agency” and “Monitoring Schedule” identify the party ultimately responsible for ensuring that the mitigation measure is implemented and the approximate timeframe for the oversight agency to ensure implementation of the mitigation measure.

Table 1: Mitigation Monitoring and Reporting Program

Mitigation Measures	Mitigation Responsibility	Monitoring/Reporting Agency	Monitoring Schedule
<p>I. Aesthetics</p> <p>VIS-1: As a condition of project approval, a photometric analysis and lighting plan shall be prepared for the proposed project. This analysis shall include an assessment of potential lighting impacts based on the height, location, light fixtures, direction and illumination intensity and hours of operation. This analysis shall identify any potential light spill beyond the site boundaries, including light that could impact water vessel or aircraft navigation. The lighting plan shall be designed to control light energy and ensure that exterior lighting is directed downward and away from adjacent streets and buildings in a manner designed to minimize off-site light spillage and reduce impacts to water vessel and aircraft navigation. The lighting plan shall be submitted to the Planning Department and City Engineer for final approval prior to approval of a building permit.</p>	Project Applicant	Brisbane Planning Department/City Engineer	Prior to issuance of building permit
<p>II. Agricultural Resources</p> <p><i>No mitigation required</i></p>			
<p>III. Air Quality</p>			
<p>AIR-1: Consistent with guidance from the BAAQMD, the following actions shall be required of construction contracts and specifications for the project. The following controls shall be implemented at all construction sites:</p> <ul style="list-style-type: none"> • Water all active construction areas at least twice daily and more often during windy periods; active areas adjacent to existing land uses shall be kept damp at all times, or shall be treated with non-toxic stabilizers to control dust; • Cover all trucks hauling soil, sand, and other loose materials or require all trucks to maintain at least 2 feet of freeboard; • Pave, apply water three times daily, or apply (non-toxic) soil stabilizers on all unpaved access roads, parking areas, and staging areas at construction sites; • Sweep daily (with water sweepers) all paved access roads, parking areas, and staging areas at construction sites; water sweepers shall vacuum up excess water to avoid runoff-related impacts to water quality; • Sweep streets daily (with water sweepers) if visible soil material is carried onto adjacent public streets; • Apply non-toxic soil stabilizers to inactive construction areas; • Enclose, cover, water twice daily, or apply non-toxic soil binders to exposed stockpiles (dirt, sand, etc.); • Limit traffic speeds on unpaved roads to 15 mph; • Install sandbags or other erosion control measures to prevent silt runoff to public roadways; • Replant vegetation in disturbed areas as quickly as possible. 	Project Applicant/ Construction Manager	Brisbane Public Works Department	Periodically during demolition, grading and construction activities

H.3.34

Table 1 Continued

Mitigation Measures	Mitigation Responsibility	Monitoring/Reporting Agency	Monitoring Schedule
<p><i>AIR-1 Continued</i></p> <ul style="list-style-type: none"> Install base rock at entryways for all exiting trucks, and wash off the tires or tracks of all trucks and equipment in designated areas before leaving the site; and Suspend excavation and grading activity when sustained wind speeds exceed 25 mph. Sustained wind speed shall be determined by averaging observed values over a two-minute period. Wind monitoring by the construction manager shall be required at all times during excavation and grading activities. <p><i>AIR-2:</i> Implement Mitigation Measure AIR-1 to reduce construction-period air quality impacts to sensitive receptors.</p>	Project Applicant/ Construction Manager	Brisbane Public Works Department	Periodically during demolition, grading and construction activities
<p>IV. Biological Resources</p>			
<p><u>BIO-1a:</u> Prior to initiation of grading and construction activities, a temporary construction fence shall be placed along the western edge of the project site along the row of toyon trees to restrict access of construction personnel and equipment into the salt marsh and drainage. A qualified biologist will assist construction personnel in the placement of the construction fencing and will monitor the site periodically during project construction.</p> <p><u>BIO-1b:</u> The project applicant shall construct a permanent fence adjacent to the pedestrian path and Bay Trail along the western and northern edge of the project site to restrict access of humans and dogs into the salt marsh. A qualified biologist shall advise the applicant regarding the location and design of the fence. The applicant shall receive approval of fence design, dimensions and location from BCDC and the Planning Department. The upland habitat on the project site should be landscaped with native shrub species such as marsh gum plant, salt grass, California sagebrush, and/or coyote brush to buffer the small marsh from activity on the pathway and provide rails and other marsh birds with shelter during extreme high tides. Such vegetation (e.g., marsh gum-plant) could also provide potential nesting habitat for various species of bird inhabiting the marsh. In the unlikely event that California black rails occur in the salt marsh, the mitigation measures outlined for California clapper rails would also protect black rails. Implementation of this two-part mitigation measure would reduce indirect impacts to California clapper rails to less-than-significant levels.</p> <p><u>BIO-2a:</u> Conduct pile-driving activities for the proposed project during the non-breeding season of the California clapper rail, September 1 through January 15. Pile-driving during this time frame would not impact the nesting activity of clapper rails if they are present in the small salt marsh adjacent to the project site and would reduce potential indirect impacts to California clapper rails to less-than-significant levels.</p>	Project Applicant/ Qualified Biologist	Brisbane Public Works Department	Prior to initiation of grading or construction activities
	Project Applicant/ Qualified Biologist	Brisbane Planning Department/San Francisco Bay Conservation and Development Commission	Prior to issuance of a certificate of occupancy permit for Phase 1
	Project Applicant/ Construction Manager	Brisbane Planning Department/Public Works Department	During the construction period

H.3.35

Table 1 Continued

Mitigation Measures	Mitigation Responsibility	Monitoring/Reporting Agency	Monitoring Schedule
<u>BIO-2b:</u> If pile driving cannot be restricted to the non-breeding season (September 1 through January 15), the applicant must develop a plan and schedule for pile driving subject to review and approval by the California Department of Fish and Game (CDFG), the United States Fish and Wildlife Service (USFWS) and City of Brisbane Community Development Director to ensure that the project is in compliance with all applicable state and federal laws and regulations pertaining to protection of the Clapper Rail. The plan may require enhanced protocol level surveys (i.e., protocol survey plus 2 to 3 additional surveys) of the adjacent salt marsh prior to pile driving activities, the establishment of appropriate buffer areas, and the use of pile driving techniques that minimize noise and vibrations. The pile driving plan, schedule and any alternative mitigations or solutions that are developed as a result of early consultations, must be reviewed and approved in writing by the CDFG, USFWS and the City of Brisbane's Community Development Director prior to issuance of a building permit to allow pile driving.	Project Applicant/ Qualified Biologist	Brisbane Planning Department/California Department of Fish and Game/U.S. Fish and Wildlife Service	Prior to issuance of a building permit to allow pile driving
<u>BIO-3a:</u> Comprehensive pre-construction surveys for burrowing owl presence shall be conducted no more than 30 days prior to any ground disturbing activities. If ground-disturbing activities are delayed or suspended for more than 30 days after the initial pre-construction surveys, the site shall be re-surveyed. All surveys shall be conducted in accordance with current California Department of Fish and Game (CDFG) burrowing owl survey protocol (CDFG, October 17, 1995). A qualified biologist shall conduct surveys for burrowing owls in all suitable habitats on the site. CDGF requires a report to be prepared and submitted to CDFG at the end of each construction season detailing the results of the pre-construction surveys.	Project Applicant/ Qualified Biologist	Brisbane Planning Department/California Department of Fish and Game	Prior to issuance of grading permit/report completed for surveys
<u>BIO-3b:</u> If burrowing owls are found to be wintering or breeding on the site, a qualified biologist shall implement a routine monitoring program in compliance with the 1995 CDFG protocol. In such an instance, the applicant shall create a mitigation plan in accordance with the 1995 CDFG protocol and shall choose to implement either an avoidance plan or passive relocation plan, subject to approval by CDFG. If an avoidance plan is selected, the applicant shall establish an exclusion zone around each occupied burrow in which no construction related activity shall occur until the burrows are confirmed to be unoccupied. No disturbance shall occur within 160 feet (50 meters) of an occupied burrow during the non-breeding season (September 1 through January 31) and within 250 feet (75 meters) of an occupied burrow during the breeding season (February 1 through August 31). If passive relocation methods are selected by the applicant, they shall be implemented pursuant to CDFG guidelines. All activities shall be coordinated with the CDFG prior to disturbance of occupied burrows.	Project Applicant/ Qualified Biologist	Brisbane Planning Department/California Department of Fish and Game	CDFG clearance required prior to grading/ construction permit issuance for affected areas
<u>BIO-3c:</u> In the unlikely event that burrowing owls are found nesting on the site, if avoidance is selected by the applicant as the mitigation alternative, in accordance with the 1995 CDFG protocol, or as otherwise approved by CDFG, 6.5 acres of suitable habitat, as determined by an experienced wildlife biologist and approved by CDFG, shall be preserved as mitigation for each pair of owls found nesting on-site. A management plan shall be developed for the	Project Applicant/ Qualified Biologist	Brisbane Planning Department/California Department of Fish and Game	Approved mitigation agreement prior to grading/construction permit issuance for affected areas

H.3.36

Table 1 Continued

Mitigation Measures	Mitigation Responsibility	Monitoring/Reporting Agency	Monitoring Schedule
mitigation area and approved by CDFG and the City. Mitigation may include permanent protection of on-site foraging habitat around the burrow of each pair or unpaired burrowing owl, or the permanent protection of habitat at a nearby off-site location acceptable to CDFG, or other plan acceptable to CDFG. If required by CDFG, the mitigation site shall be dedicated in perpetuity as wildlife habitat either through establishment of a conservation easement on the mitigation site or through transfer of ownership of the lands to an appropriate public agency that shall preserve and manage the lands as wildlife habitat.	Project Applicant/ Qualified Biologist	Brisbane Planning Department/California Department of Fish and Game	Prior to issuance of a grading permit
<u>BIO-4:</u> If tree removal, grading or construction is scheduled to begin within the breeding season for songbirds (March 1 – August 31), a qualified biologist will conduct surveys on the project site, focusing on the trees to be removed along the Bay Trail, to identify any nesting native bird species. These surveys shall be carried out no sooner than two weeks prior to the start of construction. Impacts to active nests will be avoided by establishing an exclusion zone 25-foot buffer around the active nest. Due to the relatively high levels of local ambient noise and disturbance and the likely acclimation of local nesting birds a 25-foot buffer is deemed adequate to protect nest sites. A qualified biologist will monitor each nest once per week in order to track the status of each nest and inform the project applicant of when a nest area has been cleared for construction. To avoid impacts to birds nesting in the salt marsh and drainage to the west of the project area construction fencing shall be placed along the eastern edge of the fringing vegetation (including the planted toyon) to restrict access of construction personnel and equipment.	Project Applicant	Brisbane Planning Department/City Engineer	Prior to issuance of a grading permit
<u>BIO-5:</u> The project shall comply with conditions of the NPDES Municipal Storm Water permit and Storm Water Pollution Prevention Plan for construction and commercial operations as described in Section VIII, Hydrology and Water Quality.	Project Applicant		
V. Cultural Resources			
<i>No mitigation required</i>			
VI. Geology and Soils			
<u>GEO-1a:</u> All structures shall be designed and constructed in conformance with the most recently adopted California Building Code requirements for seismic design. The City Engineer shall approve all final design and engineering plans.	Project Applicant	City of Brisbane Building Official	Prior to issuance of a building permit

H-3.37

Table 1 Continued

Mitigation Measures	Mitigation Responsibility	Monitoring/Reporting Agency	Monitoring Schedule
<p>GEO-1b: As a condition of approval and prior to the issuance of a grading permit, the applicant shall submit a final site-specific, design-level geotechnical investigation, to be prepared by a licensed professional, to the City for review and approval. The geotechnical investigation shall include recommendations for gradings, avoidance of settlement, and differential settlement of infrastructure and buildings. The recommendations shall be incorporated into all development plans submitted for the project.</p>	Project Applicant	City Engineer	Prior to issuance of a grading permit
<p>GEO-1c: The applicant shall provide information to prospective building occupants regarding earthquake safety. The information shall include one or more of the following publications:</p> <ul style="list-style-type: none"> • Information obtained from the California Division of Mines and Geology in its 1997 report "Guidelines for Evaluating and Mitigating Seismic Hazards in California" (which can be downloaded from the Division's home page at www.consrv.ca.gov); • "The Commercial Property Owner's Guide to Earthquake Safety," produced by the Seismic Safety Commission (SSC) and available at 1755 Creekside Oaks Drive, Suite 100, Sacramento, CA 95883 or at 916-263-5506; and • "Peace of Mind in Earthquake Country" (Peter Yanev, 1991, Chronicle Books). 	Project Applicant	Planning Department	Ongoing to be demonstrated upon request of Planning Department
<p>GEO-2a: All structures shall be designed and constructed in conformance with the most recently adopted California Building Code requirements for building design in areas undergoing compaction. The Building Official shall approve all final design and engineering plans.</p>	Project Applicant	Brisbane Planning Department/Building Official	Prior to issuance of a building permit issuance
<p>GEO-2b: As required in Mitigation Measure GEO-1b, the applicant shall prepare and submit to the City for final approval a final design-level geotechnical investigation that includes recommendations for avoidance of settlement and placement of fill materials.</p>	Project Applicant	Brisbane Building Official/City Engineer	Prior to issuance of a grading permit
<p>GEO-2c: The final geotechnical investigation shall include an Inspection and Repair Plan to address future settlement of the project site. The Inspection and Repair Plan shall delineate an inspection schedule for storm water conveyances and other utilities (on at least an annual basis) to determine adverse effects of settlement. The plan shall identify responsibility for repair of any affected improvements (e.g., property owner, lessees, or property management company). The inspection results and repairs shall be documented to the City in a biannual report. (See also Mitigation Measure GEO-3, below).</p>	Project Applicant	Brisbane Building Official/City Engineer	Prior to issuance of a grading permit. Ongoing implementation demonstrated via submission of required biannual report
<p>GEO-3: The applicant shall coordinate with the Sierra Point Environmental Management Association to ensure that the Inspection and Repair Plan (see Mitigation Measure GEO-2c) includes provisions for dike inspections and repairs. The dikes shall be inspected at least annually (and immediately following a seismic event) and necessary repairs to ensure stability shall be implemented. All inspections and repairs shall be conducted by or in accordance with the recommendations of a licensed professional engineer.</p>	Project Applicant/Sierra Point Environmental Management Association	City Engineer	Ongoing yearly reports filed with City Engineer

H. 3.38

Table 1 Continued

Mitigation Measures	Mitigation Responsibility	Monitoring/Reporting Agency	Monitoring Schedule
GEO-4: The applicant shall coordinate with the Sierra Point Environmental Management Association to ensure that the Post-Earthquake Inspection and Corrective Action Plan (Action Plan) is updated to reflect the changes in conditions at the project site since its initial preparation in 1996. The Inspection and Repair Plan (see Mitigation Measure GEO-2c) should work cooperatively with the Action Plan. The revised Action Plan shall be submitted to the City prior to site occupancy.	Project Applicant/Sierra Point Environmental Management Association	City Engineer	Prior to issuance of a certificate of occupancy permit
VII. Hazards and Hazardous Materials			
HAZ-1: Any site development activities must comply with the requirements of the Water Board Order, applicable post-closure SRWCB/CIVMB Title 27 CCR requirements enforced by the LEA, including, but not limited to: ensuring landfill cover and integrity; drainage and erosion control systems; a means to address differential settlement; gas control and monitoring, including installation of a geomembrane (or equivalent system); and development of a post-closure emergency response plan. Construction activities must also comply with San Mateo County requirements for proposed excavation activities on former landfills for worker health and safety, and the requirements of the Brisbane General Plan and other City requirements (Grading Permit, Building Permit).	Project Applicant/ Construction Manager	Brisbane Public Works Department	Prior to issuance of a grading permit and full time inspection for all grading and clay cap placement. Full time inspection for placement of below slab geomembrane material, for all pile penetration sealing operations, for placement of all below slab utilities, and for pile cap, grade beam, and floor slab concrete pours.
VIII. Hydrology and Water Quality			
<i>No mitigation required</i>			
IX. Land Use And Planning			
<i>No mitigation required</i>			
X. Mineral Resources			
<i>No mitigation required</i>			
XI. Noise			
NOISE-1: The project shall comply with the following noise reduction measures: <ul style="list-style-type: none"> General construction activities shall be allowed only between the hours of 7:00 a.m. to 7:00 p.m. on weekdays and 9:00 a.m. and 7:00 p.m. on weekends and holidays. Pile driving shall be limited to Monday through Friday 8:00 a.m. to 5:00 p.m. and prohibited on Saturdays and Sundays. Construction outside of these hours may be approved through an exception permit issued by the Planning Director. The exception permit shall include appropriate conditions to minimize noise disturbance of affected hotel, office and commercial uses. All heavy construction equipment used on the project site shall be maintained in good operating condition, with all internal combustion, engine-driven equipment fitted with intake and exhaust mufflers that are in good condition. 	Project Applicant/ Construction Manager	Brisbane Public Works Department	Periodically during grading and construction activities

H. 3. 39

Table 1 Continued

Mitigation Measures	Mitigation Responsibility	Monitoring/Reporting Agency	Monitoring Schedule
<p>AIR-1 Continued</p> <ul style="list-style-type: none"> All stationary noise-generating equipment shall be located as far away as possible from neighboring property lines. Post signs prohibiting unnecessary idling of internal combustion engines. The construction manager shall identify and designate a "noise disturbance coordinator" who would be responsible for responding to any local complaints about construction noise. The disturbance coordinator would determine the cause of the noise complaints and institute reasonable measures warranted to correct the problem. The noise disturbance coordinator shall report all complaints and resolution thereof to the City via monthly reports. A telephone number for the disturbance coordinator shall be conspicuously posted at the construction site. Utilize air compressors that are designated as "quiet" and other "quiet" construction equipment sources where such technology exists. 			
XII. Population And Housing			
<i>No mitigation required</i>			
XII. Public Services			
<i>No mitigation required</i>			
XIII. Recreation			
<i>No mitigation required</i>			
XV. Traffic			
<p>TRAF-1: Based on the Second Amendment document, the applicant shall be responsible for modifying the intersection of Sierra Point Parkway and Lagoon Way (#8) by signalizing the intersection (or paying their fair share of these improvements should they have been previously completed), to the satisfaction of the City Engineer in regards to design and the timing of the improvements. This mitigation would allow the intersection to operate at LOS B during the AM and PM peak hours.</p>	Project Applicant	Brisbane Public Works Department/City Engineer	Upon reaching traffic volume thresholds established pursuant to adopted 2 nd Amendment to Agreement Concerning Project Approval Documents (2nd Amendment Document). Project applicant to monitor traffic volumes on yearly basis or as otherwise determined necessary by the Public Works Director.
<p>TRAF-2: The applicant shall be responsible for installing a signal (or paying their fair share of these improvements should they have been previously completed), to the satisfaction of the City Engineer in regards to design and the timing of the improvement. This mitigation measure would allow the intersection to operate at LOS C during the AM peak hour and LOS B during the PM peak hour.</p>	Project Applicant	Brisbane Public Works Department/City Engineer	As required by the City Engineer or prior to issuance of certificate of occupancy permit for Phase 2
<p>TRAF-3: Based on the Second Amendment document, the applicant shall be responsible for signalizing the intersection of Sierra Point Parkway and Shoreline Court (#10) and the</p>	Project Applicant	Brisbane Public Works Department/City Engineer	See TRAF-1

H.3.40

Table 1 Continued

Mitigation Measures	Mitigation Responsibility	Monitoring/Reporting Agency	Monitoring Schedule
<p>addition of a second eastbound left-turn lane and the conversion of the northbound through lane to a left-turn lane (or paying their fair share of these improvements should they have been previously completed), to the satisfaction of the City Engineer in regards to design and the timing of the improvement. This mitigation measure would allow the intersection to operate at LOS B during the AM peak hour and LOS D during the PM peak hour.</p> <p><u>TRAF-4:</u> The applicant shall be responsible for mitigating the impacts at the intersection of Bayshore Boulevard and Old County Road (#6) to the satisfaction of the City Engineer. Potential mitigations that would result in a satisfactory LOS include: adding a second southbound left-turn lane, or adding a second eastbound left-turn lane and converting the existing shared-through-left to a through lane; or adding a westbound through lane; and/or adjusting the signal timing. The applicant shall pay their fair share of the approved mitigation measure should it be completed prior to construction of the proposed Opus Office project.</p>	<p>Project Applicant</p>	<p>Brisbane Public Works Department/City Engineer</p>	<p>As required by the City Engineer or prior to issuance of certificate of occupancy permit for Phase 2</p>
<p><u>TRAF-5:</u> In accordance with CMP requirements, the project applicant shall identify and implement Travel Demand Management (TDM) measures to reduce project impacts and shall ensure that the TDM measures are implemented by the project applicant or tenants, per the approval of the City Engineer regarding the specific measures and the implementation timing. A list of TDM measures are provided in the San Mateo County Final Congestion Management Program. In coordination with the City and prior to issuance of a building permit, the applicant shall prepare and provide the City with a Traffic Reduction Plan that identifies specific TDM measures to be implemented. Specific measures that could be included in the Plan to reduce trips associated with the project are listed below:</p> <p><u>TRAF-5 Continued</u></p> <ul style="list-style-type: none"> • Provide for increased frequencies of existing dedicated shuttle service during the peak period to a rail station or residential area; coordinate with Caltrain shuttle services with respect to locations of stops and related amenities; • Participate in City programs (when and if they are available) aimed at reducing vehicular traffic trips; • Provide a location for a dedicated shuttle stop; • Provide secure bicycle parking; • Provide and operate an on-site commute assistance center to allow for one stop shopping for transit and commute alternatives information, preferably staffed with a live person to assist building tenants with trip planning; • Provide subsidized transit passes; • Provide less parking, charge for parking, and offer employees a parking cash-out program; and • Implement an alternate hours workweek program, also known as flextime. 	<p>Project Applicant</p>	<p>Brisbane Planning Department/County Congestion Management Agency</p>	<p>Prior to issuance of building permit</p>
<p><u>TRAF-7:</u> The applicant shall provide the amount of parking as required under the parking modification conditional use permit.</p>	<p>Project Applicant</p>	<p>Brisbane Public Works Department/City Engineer</p>	<p>Prior to issuance of certificate of occupancy permit for each phase</p>

H.3.41

Table 1 Continued

Mitigation Measures	Mitigation Responsibility	Monitoring/Reporting Agency	Monitoring Schedule
<p>XVI. Utilities And Services</p> <p>UTL-1a: As a condition of approval and prior to issuance of building permits, the applicant shall incorporate a pressure reducing/pressure sustaining valve on the 16-inch interconnection between CalWater and the City of Brisbane Water Districts in a valve box located in the center median of Shoreline Court, or pay their fair share as determined by the Public Works Department if the improvement has already been completed. The valve shall be properly sized and have the ability to provide bidirectional fire flow to Sierra Point and the proposed project while concurrently maintaining the capacity to provide the required fire flow and pressure to the CalWater District. The new interconnection assembly shall comply with the City of Brisbane Public Works Department, CalWater and North County Fire Department specifications.</p>	<p>Project Applicant</p>	<p>Brisbane Public Works Department</p>	<p>Prior to issuance of a building permit</p>
<p>UTL-1b: As a condition of approval and prior to issuance of building permits, an agreement must be made between CalWater and the City of Brisbane Water District and a program prepared that identifies and establishes responsibilities and operating ranges for the pressure reducing/pressure sustaining valve and the routine maintenance and testing of the facility. The applicant shall be responsible for the costs associated with preparation and implementation of the program, or pay their fair share as determined by the Public Works Director if the program is already in place.</p>	<p>Project Applicant</p>	<p>Brisbane Public Works Department</p>	<p>Prior to issuance of a building permit</p>
<p>UTL-1c: The project applicant shall pay their fair share, as determined by the City of Brisbane Public Works Department, for the future development of a water storage tank sized to provide local fire and maximum day demands water volume to serve Sierra Point.</p>	<p>Project Applicant</p>	<p>Brisbane Public Works Department</p>	<p>Within 30 days of issuance of a certificate of occupancy permit for Phase 1</p>
<p>UTL-2: The proposed project shall include a dedicated fire flow supply loop separate from the potable water system properly sized to handle project fire flow requirements and connected, through a double detector check valve assembly, directly into the street main at two separate locations in accordance with Public Works Department and Fire Authority specifications. Each fire supply loop connection to the street main shall include a double detector check valve. A fire loop system separated from the potable water system will allow for smaller water mains to serve the peak daily demand for the project, thereby allowing for quicker water turnover in the potable water system. Separate potable and fire supply systems will also allow for maintenance on either looped system without affecting the other. The separate potable water service shall be looped by connecting directly into the street main at two separate metered locations.</p>	<p>Project Applicant</p>	<p>Brisbane Public Works Department</p>	<p>Prior to issuance of a certificate of occupancy permit</p>

H-3.42

Table 1 Continued

Mitigation Measures	Mitigation Responsibility	Monitoring/Reporting Agency	Monitoring Schedule
<p>UTL-2 Continued As an alternative, the applicant could submit a proposal for a dual-use fire/potable water loop but, as part of such a submittal, must provide sufficient evidence (e.g., hydraulic calculations) to the satisfaction of the City Engineer, that the water would not stagnate in such a dual-use system and that the impact would be mitigated to a less-than-significant level. Additional water quality measures may be required in the event that a dual-use fire/potable water loop is installed. Such measures include, but are not limited to, programmable automatic water line flushing units and in-line water quality monitoring stations. Design for the reuse of the flushing discharge water, such as recycling the water back into the landscaping, would be required.</p>	Project Applicant	Brisbane Public Works Department	Prior to issuance of a certificate of occupancy permit for Phase 2
<p>UTL-3: The project applicant shall pay for the installation of larger pumps or a complete replacement of the Sierra Point Lift Station, as determined by the Public Works Department, to accommodate the increase in peak sewer flows from the project site. In the event the improvements have been completed at such time as the applicant is ready to develop, the applicant shall pay a fair share of such improvements as determined by the Public Works Director. Additional required improvements to the lift station may include replacement of the electrical system and a larger standby generator.</p>	Project Applicant	Brisbane Public Works Department	Prior to certificate of occupancy permit for Phase 1
<p>UTL-4: The project applicant shall eliminate all existing service fittings along the 16-inch diameter perimeter water line adjacent to the project site and shall replace the line with a straight length of identical high-density polyethylene (HDPE) pipe with fused joints. All future services shall be cut-in shop fabricated tees. The applicant shall pay for a full-time City inspector to be on site during the installation of the HDPE water pipe. A 2-inch blow-off shall be installed along the northeast end of the property along the 16-inch water main. Future valves shall be installed inside an underground vault.</p>	Project Applicant	Brisbane Public Works Department	Prior to issuance of a building permit
<p>UTL-5a: As a condition of approval and prior to the issuance of any building permits for the project, the applicant shall implement additional water conservation measures for the project. The proposed project shall comply with all applicable elements of the SFPUC's Water Conservation Program C, as described in the WSA. In addition, the project shall comply with Program D, as described in the WSA, and shall install (i) waterless urinals or, alternatively, as described in the WSA, provide additional funding to the toilet retrofit program, (ii) dedicated landscape meters for outdoor irrigation use, and (iii) low water-use, drought-resistant, non-invasive landscaping including native plants where possible and feasible. The program design and demand reduction shall be reviewed and approved by the City Engineer. The specific water conservation measures shall be incorporated into the final building design.</p>	Project Applicant	Brisbane Public Works Department/City Engineer	Prior to issuance of a building permit
<p>UTL-5b: As a condition of approval, the applicant shall also participate in Program E, as described in the WSA, which includes the funding of landscape irrigation retrofits at public areas in the Sierra Point area of Brisbane and residential high efficiency toilet retrofit programs for the City, or, in the event that goals specified in the WSA are not met, additional conservation measures required by the City Engineer shall be required to achieve the water</p>	Project Applicant	Brisbane Public Works Department/City Engineer	Prior to issuance of a building permit

H-3.44

RESOLUTION NO. 88-10

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF
BRISBANE ESTABLISHING PROCEDURES AND REQUIREMENTS
FOR THE CONSIDERATION AND ADOPTION OF DEVELOPMENT AGREEMENTS

WHEREAS, Article 2.5, Division 1 of Title 7 of the Government Code (commencing with Section 65864) provides that a City may enter into a development agreement with any person having a legal or equitable interest in real property for the development of such property; and

WHEREAS, Section 65865 of the Government Code provides that the City may, by resolution or ordinance, establish procedures and requirements for the consideration of development agreements:

NOW, THEREFORE, BE IT RESOLVED, that the following procedures and requirements for the consideration of development agreements be, and hereby are, adopted:

PART 1 - Application

1. Authority for adoption. These regulations are adopted under the authority of Government Code Section 65864 et seq.

2. Applications. Consideration of a development agreement pursuant to Government Code Section 65864 et seq. shall be initiated by the applicant(s). If the applicant(s) is not the fee owner(s), the fee owner(s) must join in the application. The City of Brisbane may, at its sole discretion, enter into a binding agreement with any qualified applicant(s) for the development of such property pursuant to and in accordance with these regulations.

3. Filing application. The application shall be filed in the office of the Planning Director. The form of such application and the information and data to be set forth thereon shall be as prescribed by the Director. Each application shall be accompanied by fees as established by resolution of the City Council.

4. Application Contents. Any application for a development agreement made to the Planning Director shall contain a proposed agreement with the following information:

a. A legal description of the property sought to be covered by the development agreement.

b. A description of the proposed uses, height and size of the buildings, density or intensity of use, and provision for reservation or dedication of land for public purposes.

c. All proposed conditions, terms, restrictions and requirements regarding subsequent City discretionary actions.

d. The proposed time when construction will be commenced and completed, both as to the entire project and as to all phases established therein.

e. A termination date for the development agreement.

f. The location of all public improvements, requirements for landscaping, and any other terms and conditions.

5. The application shall contain sufficient information to enable the Planning Director to perform an initial study pursuant to the California Environmental Quality Act ("CEQA") Guidelines Section 15063 (14 Cal.Admin. Code §15063).

6. The application shall contain sufficient information to establish that the project is consistent with the General Plan of the City and all other applicable specific plans.

7. The application shall contain such other information as the Planning Director may require to prepare a recommendation.

PART 2 - Action by Planning Commission

1. The application shall be processed by the Planning Director upon receipt. The Planning Director shall report to the Planning Commission the results of any environmental investigation and shall submit a recommendation regarding the proposed development agreement. The Planning Commission shall hold a noticed public hearing to consider the recommendation regarding the adoption of a development agreement in accordance with Section 65854, 65854.5 and 65856 of the Government Code.

2. The Planning Commission shall not recommend approval unless it finds the provisions of the agreement are consistent with the General Plan and any applicable specific plans.

3. The Planning Commission upon completion of the hearing and upon finding the agreement consistent with the General Plan and any applicable specific plans, shall make a recommendation to the City Council.

PART 3 - Action by City Council

1. Upon receipt of the application, the results of any environmental investigation, and the recommendation of the

Planning Commission and/or the Planning Director, the City Council shall hold a noticed public hearing regarding the Council's intent to consider the adoption of a development agreement as provided in Section 65854, 65854.5 and 65856 of the Government Code.

2. Upon completion of the public hearing and the closure thereof, the City Council shall approve, modify, or disapprove the proposed development agreement.

3. The agreement shall not be approved by the City Council unless the City Council finds that the proposed development agreement, as submitted or modified, is consistent with the General Plan and any applicable specific plans and this resolution.

4. The City Council may add, modify or delete any provision of the proposed development agreement as a condition of approval.

5. Should the City Council determine to approve the development agreement, it shall be adopted by ordinance and subject to referendum.

6. The effective date of the agreement shall be the effective date of the ordinance unless a later date or the occurrence of an event is specified in the agreement as the effective date.

7. The City may consider adoption of development agreements for property located outside the corporate limits of the City. The application shall be acted upon by the City only if the property is in the sphere of influence of the City and in the City's General Plan or any specific plan(s), if applicable. The agreement shall be conditioned upon the annexation of the property becoming effective. If the annexation is not completed within the time period specified in the agreement for the annexation to occur, or any extension by agreement, the agreement shall become null and void.

PART 4 - Irregularity in proceedings

No action, inaction or recommendation regarding the proposed development agreement shall be held void or invalid or be set aside by a court by reason of any error, irregularity, informality, neglect or omission ("error") as to any matter pertaining to petition, application, notice, finding, record, hearing, report, recommendation or any matter of procedure whatever, unless after an examination of the entire case, including the evidence, the court is of the opinion that the error complained of was prejudicial and by reason of the error the complaining party sustained or suffered substantial injury,

and that a different result would have been probable if the error had not occurred or existed. There is not a presumption that error is prejudicial or that injury was done if error was shown.

PART 5 - Recordation

1. Within ten (10) days after the effective date of the development agreement, the City Clerk shall have the agreement recorded with the County Recorder.

2. If the parties to the agreement or their successors in interest amend or cancel the agreement as herein provided, or if the City terminates or modifies the agreement for failure of the applicant to comply in good faith with the terms or conditions of the agreement, the City Clerk shall have notice of such action recorded with the County Recorder.

PART 6 - Amendment or cancellation

1. Any development agreement may be amended or cancelled in whole or in part, by the mutual consent of the parties to the agreement or by their successors in interest. The procedure for amendment or cancellation shall be the same as the procedure for approval except for the findings required to be made by the City Council. An amendment may be granted upon a finding by the City Council that the amendment is consistent with the General Plan, and specific plan and Zoning Codes in effect at the time the ordinance authorizing the agreement was adopted, or at the time of any amendment. Review of the amendment shall be limited to consideration of those elements proposed to be added or changed.

2. The issuance of any land use approval or permit which approves a change in the term, permitted uses, density or intensity of use, height or size of buildings, provisions for reservation and dedication of land, conditions, terms, restrictions and requirements relating to subsequent discretionary actions, monetary contributions by a developer, or in any other vested element set forth in the agreement, shall require an amendment to the development agreement for such change to be vested.

3. Any change in the design elements not specified in the agreement shall not require an amendment of the agreement. The Planning Director shall make the determination as to whether an amendment is necessary.

PART 7 - Compliance

1. The Planning Director shall set a hearing for the Planning Commission for review of developer's compliance with the agreement on an annual basis and at any other time that the Director determines there are reasonable grounds to believe the

developer may be in default of the agreement. Developer shall notify the Planning Director of each anniversary date one month in advance of the annual review period.

2. Upon not less than thirty (30) days written notice by the Planning Director, the developer shall provide such information and documents as may be deemed by the Director to be reasonably necessary to ascertain compliance with the agreement.

3. If the Director of Planning intends to recommend that the Planning Commission refer the matter to the City Council, the Director shall so notify the developer. Such notice shall specify the actions which must be taken to cure the noncompliance. If the developer, in writing, requests time to cure the noncompliance, the Planning Commission hearing shall be deferred to allow a reasonable period of time to allow the developer to affect a cure. The reasonable period of time shall be determined by the Director under the circumstances, provided, however, that if the noncompliance presents a threat of eminent harm to the public, the deferral shall not be more than thirty (30) days.

4. At any compliance hearing, the developer shall be given the opportunity to be heard orally or in writing regarding performance under the agreement.

5. If the Planning Commission finds the developer to be in full compliance with all terms and conditions of the agreement, it shall adopt a resolution certifying compliance of the agreement through the applicable period of review. Said resolution may be recorded by the developer with the County Recorder.

6. If the Planning Commission finds that good faith compliance with all terms and conditions of the agreement has not been demonstrated, the Commission shall refer the matter along with its recommendation to the City Council.

7. If the Planning Commission refers the matter, the City Council shall conduct a hearing on compliance at its first available agenda for such referral. The Council shall hear the matter de novo.

8. If the City Council finds and determines, on the basis of substantial evidence, that the developer has not complied in good faith with all terms and conditions of the agreement, the City Council may terminate or modify the agreement.

PART 8 - Change in state laws or regulations

The City is not precluded from applying to development of the subject property changes in City laws, regulations, plans or

policies, the terms of which are specifically mandated and required by changes in state or federal laws or regulations. In the event state or federal laws or regulations enacted after the agreement have been executed or action of any governmental jurisdiction other than the City prevents or precludes compliance with one or more provisions of this agreement or requires changes in plans, maps or permits approved by City, the agreement shall be modified, extended or suspended as may be necessary to comply with such state or federal laws or regulations or the regulations of such other governmental jurisdictions.

PART 9 - Default

1. Failure or unreasonable delay by the developer to perform any term or provision of the agreement shall constitute a default. Except in cases where developer's breach of this agreement presents a threat of eminent harm to the public, the City Manager shall give the developer not less than thirty (30) days notice in writing specifying the nature of the alleged default and the manner in which said default may be satisfactorily cured. After notice and expiration of the thirty (30) day period, the City, at its option, may institute legal proceedings for specific performance or other injunctive or declaratory relief to enforce the agreement. In the alternative, the City may, rather than following the default procedure, hold a compliance review pursuant to Part 7 of this resolution.

2. In the event the City does not accept application for review, approval or issuance of necessary development permits or entitlements for use to a developer as required by and in accordance with the terms of a development agreement, or the City otherwise defaults under the terms of the development agreement as to such developer, such developer shall not be obligated to proceed with or complete the improvements required under the development agreement, or any phase thereof, nor shall resulting delays in such developer's performance constitute grounds for termination or cancellation of the development agreement. In addition, the developer may, at developer's option, institute legal proceedings for specific performance or other injunctive or declaratory relief to enforce the agreement. Nothing herein shall limit any legal right under a cooperative agreement underlying an assessment district or similar proceeding entered into between the City and developer for the project.

PART 10 - Reserved approvals

1. Nothing herein shall be construed to limit the authority or obligation of the City to hold necessary public hearings or to limit the discretion of the City or any of its officers or officials with regard to rules, regulations, ordinances, laws and entitlements of use which require the exercise of discretion by City or any of its officers or

officials, provided that the subsequent discretionary actions shall not be in conflict with those elements vested in the development agreement.

2. Nothing herein shall be construed to limit the authority of the City to adopt and apply codes, ordinances or regulations which have the legal effect of protecting persons or property from dangerous or hazardous conditions which create substantial physical risk. This provision is intended to protect and recognize the authority of the City to deal with dangerous or hazardous conditions or situations which were not adequately addressed at the time of the adoption of the development agreement. This section is not intended to otherwise limit intensity of development or use for purposes of general public welfare.

3. Codes, ordinances, and regulations relating to construction standards or permits shall apply as of the time of grant of each applicable construction permit, except to the extent that such are in conflict with a vested element. In the case of conflict, the new codes, ordinances, and regulations shall apply to new construction to the same extent as would be applicable in the case of substantial reconstruction of an existing structure.

THEREFORE, the Brisbane City Council hereby adopts this resolution for establishing the procedures and requirements for consideration and adoption of development agreements.

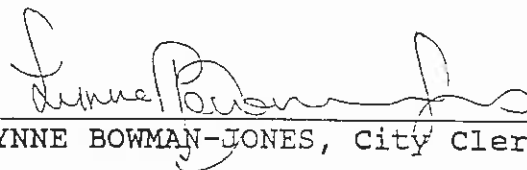

LEWIS E. GRAHAM II, Mayor

I hereby certify that the foregoing Resolution No. 88-10 was duly and regularly passed and adopted by the City Council of the City of Brisbane at a regular meeting thereof held on the 25th day of April, 1988, by the following vote.

AYES: Nielsen, Miller, Smith, Attard, Graham

NOES: None

ABSENT: None

LYNNE BOWMAN-JONES, City Clerk
