Aquatics Recreation Coordinator Franco said that in early 2016, Mr. O’Keeffe approached aquatics staff with a request to donate automatic swimsuit dryers to the Brisbane Community Pool. He said that since then, a survey of pool users concluded that there wasn’t sufficient desire for the dryers. Mr O’Keeffe then offered to make a donation toward new pool covers which are needed to cover the entire pool and which staff anticipates to realize some energy cost savings.

After Councilmembers questions, they asked staff to draft a letter from the Mayor to thank Mr. O'Keeffe for his generosity.

## **ORAL COMMUNICATIONS NO. 1**

Destiny Bednar-Cianci expressed her concern for Brisbane's high school student getting to Terra Nova and Oceana if the bus service is eliminated. She advocated for the Council to find a way to keep the service.

Michael Barnes thanked Council and staff for the wonderful skate park grand opening event and presented a \$500 check from the sale of t-shirts at the event. He asked that the donation go towards future improvements at the skate park.

## **NEW BUSINESS (Item C was taken out of order due to citizens present to speak.)**

### **C. Give direction to staff regarding next steps related to daily school bus service to and from Oceana and Terra Nova High Schools**

Deputy City Manager Schillinger reported on the costs of providing the high school bus service and how much each student paid last school year. He reported that recently the current provider CYO Transportation Services contacted the City to notify them that they would no longer be providing services due to misbehavior of the students throughout the years. He said that staff attempted to work things out with them to no avail. He said that since then, staff has contacted Samtrans and other transportation companies as well as contacting the Jefferson Union High School District (JUHSD) to discuss alternatives. He talked about other options such as coordinating a parent car pool, City involvement with parents and students if another provider is hired, whether an adjustment of costs should be considered, and the deadline of school starting in August.

Councilmembers asked about the possibility of video monitoring on the buses, students signing a code of conduct, and a sliding pay schedule for lower income students.

Holly Rios said that she appreciated the City's efforts in providing the high school bus service. She expressed her view that there should be consequences for students who misbehave and said that she appreciated the partial payment option that had been offered.

Nancy Lacsamana said that the school bus service was a life saver for her family and thanked the Council for funding that important service. She said that a meeting should be held with parents and children before the school year starts to discuss the zero tolerance for misbehaving and the consequences. She advocated working with the JUHSD Board members to get them to provide the transportation or help with the costs.

Councilmembers expressed their dismay and disappointment in the behavior of the students and talked about the history of why the City was now providing high school bus service. After further questions and clarifications from staff, it was the consensus of the Council to find another provider for only one more year and then meet with the JUHSD 2x2 committee to discuss what to do from then on.

CM Conway made a motion, seconded by CM Davis, to authorize staff to enter into a contract with another bus provider for one year and to look into surveillance cameras being installed on the bus. The motion carried unanimously by all present.
