

City of Brisbane

Agenda Report

TO: Honorable Mayor and City Council

FROM: Randy Breault, Director of Public Works/City Engineer via City Manager

SUBJECT: Sale of City Real Property – Lot 1, Block I

DATE: April 7, 2014

City Council Goals:

To promote economic development that stabilizes and diversifies the tax base. (#4)

To develop plans and pursue opportunities to enhance Open Space. (#7)

Purpose:

To obtain Council's approval to sell a portion of the former Southern Pacific Transportation Company's rail spur to an existing business in Crocker Industrial Park that owns the adjoining parcel.

Recommendation:

Approve the attached "Purchase and Sales Agreement" that transfers "Lot 1, Block I" from the City of Brisbane to South Hill Properties, LLC.

Background:

South Hill Properties operates a business as Sheng Kee Bakery at 201 South Hill Drive. Based on a desire to expand their facilities in Brisbane, the company had real estate brokers reach out to city staff to inquire about the possibility of purchasing the former rail spur that paralleled the western edge of their existing property. The general location of this undeveloped parcel requested for purchase is identified on the attached "201 South Hill" (2 pages).

Two issues dominated staff's review of this request and subsequent closed session conversations with Council; first, was the examination of any future "best" uses for this parcel; second, was the presence of existing city storm drain facilities.

The question on future best uses for this parcel was focused primarily on its potential use for access to San Bruno Mountain. As seen in the attached "Vicinity 201 South Hill" photo, this

parcel dead-ends at 201 South Hill, and does not provide any potential for future access to the mountain. A search of the paper trail of property transactions in this area revealed that Southern Pacific Transportation Company transferred the rail property in question to McKesson Corporation in the 1990s. In 1995, in an effort to comply with additional onsite parking requirements associated with a city-issued building permit, the property owner at 211 South Hill (immediately west of Sheng Kee Bakery) purchased the approximately 45' wide former rail spur contiguous to its western boundary. This land purchase and the city's approval of a lot line adjustment created the area of discontinuity in the former rail spur, which is shown on the "Vicinity 201 South Hill" photo.

While this discontinuity creates a moot point in the discussion of using this spur for effective trail access, it is informative to note that even if this discontinuity did not exist, the city's ownership of former rail spurs in this area ends just one parcel away (see "Vicinity 201 South Hill-wider view" photo).

The second issue considered during review of this request was the storm drain facilities. This matter is proposed to be resolved by requiring the purchaser to maintain the storm drain facilities, including providing permission for the city to inspect their compliance.

Discussion:

A valid argument can be made that selling a parcel the City is not presently using, and for which it has no identified future use, to accommodate this existing business' expansion will contribute to the positive economic development of Crocker Industrial Park. The concern the Council addressed during conversations with its real property negotiator was whether or not there were opportunities to use the revenue from this sale to make improvements for access to San Bruno Mountain in other areas (i.e., where discontinuities in parcel ownership did not prevent that).

Development of those other opportunities was not completed as part of this staff report, and may be items the Council wishes to refer to other standing committees/commissions for input to a future Council decision. Staff did confer with several employees of the San Mateo County Parks and Recreation Department, and the overwhelming response was that County Parks would be interested in assisting the City with any efforts to implement trail and trail access projects that are shown on the park's Existing Land Use or in its Master Plan.

Fiscal Impact:

The proposed sale would produce a one-time revenue to the city in the amount of \$293,059.70 (e.g., \$301,851.50 purchase price minus \$8,791.80 broker's sales commission).

Measure of Success

The sale of unutilized land with no identified future use, resulting in one-time revenue that the City can program as directed by the City Council.
