I could lend my perspective as a long-time urban advocate, with expertise in good city design. As a parent of school-aged children, I am also connected to the parent and school community and could represent those interests and concerns at the committee level.

How often are you out of town? What other commitments might cause conflicts in your attendance at Committee meetings?

My other commitments are my family, BES, and a role on the Mothers of Brisbane board (Treasurer). I can attend meetings on 1st Wednesdays, and can meet with committee members other times throughout the month, especially on weekday mornings. I look forward to making a difference on these issues.

How long have you lived in Brisbane? 12 years

Occupation: The nature of my work is varied but confidential in nature

Employer's Name: My employer requires that I not disclose.\*

If necessary I will discuss privately but not publicly. Has no relation to Brisbane.

Present Position: See above Length of Employment: 7 months

What community activities are you presently involved in, or have been in the past?

Citizens Committee on the Baylands (Cit Com)

San Mateo County Civil Grand Jury 2010-2011

Please list any other background information (business, education, personal) that might be useful

The skills I employed as both an Operations Manager and systems analyst  
included measured observation, analysis and documentation of procedures.

The same disciplines were employed as a Civil Grand Juror along with careful  
investigation and discussion to reach consensus and write conclusive reports.

My background in journalism and graphic arts contribute to both my  
inquisitive nature and attention to detail. I am very comfortable  
interviewing and working on committees.

Why do you want to be a member of the above Committee?

I'm excited about the formation of this new and more comprehensive incarnation of the Traffic Advisory Committee. I believe this committee will be instrumental in identifying and illuminating the factors that will determine the future character of Brisbane. Since I plan to remain in Brisbane I'm a stakeholder in this endeavor. I would like to participate in this process and assist our City Council in making solid and well-thought decisions for our community.

What do you feel you could contribute to the Committee?

Residing on one of the busiest streets, I've had the opportunity to personally observe changes in traffic concurrent with the increase in population. As a city with limited egress the priorities of traffic and pedestrians can sometimes conflict. Adding further commercial and residential development to the Baylands, Sierra Point, Crocker Industrial and Central Brisbane will put never-before-seen pressures on our determination to maintain quality of life. I would endeavor to insure that we recognize changes will come but that we not overlook careful study and planning to preserve the character of our city.

How often are you out of town? What other commitments might cause conflicts in your attendance at Committee meetings?

My work schedule allows flexibility and I would not anticipate problems attending meetings. I travel out-of-town only once or twice a year and for very brief periods of time that can be worked around meetings. I am willing to devote time to working on this committee since I consider the timeliness and relevance of its function to be critical to the decisions being made for our future.
