Subject: Please support the proposed Baylands plan

Dear Mayor Lori S. Liu,

Please include residential development in your project.

Without a balance of commercial, residential and retail the traffic impacts on both Brisbane and the region will be disastrous. Walkable communities are the key to reducing gridlock and increasing human health and happiness. It also provides multiple revenue sources in case of economic shifts.

All told, providing housing in this incredible development opportunity is both the wise and moral course.

Regards,
Kara Cox
