**Subject:** Resolution WHEREAS for tonight's meeting

Dear Planning Commissioners,

As chair of the City Council -appointed Citizens Committee to Review the Baylands EIR I must request that the committee's intensive volunteer work and input be somehow recognized in your formal legal resolution of recommendations to the Council.

Our Citizens Committee members have not only submitted extensive, knowledgeable comments on the DEIR but also continued our work through regular observation of and input at your hearings.

This level of citizen participation in a major local planning process is extraordinary and therefore worth mention in your recommendations. An additional draft WHEREAS clause is attached for your consideration.

Anja Miller
