Subject: Housing in the Baylands: Yes!

Dear City Council,

I've lived in Brisbane for almost 20 years as a renter. I love this town but, as a single woman, who doesn't earn a six figure salary, houses and condos in town are out of my reach. I would welcome sustainable, affordable housing to the Baylands. In addition to providing housing to working folks it would add revenue to our local, in-town businesses that seem to go out of business at an alarming rate.

I hope you will consider a reasonable plan that includes at least some housing in the Baylands. Thank you for your time.
