RE: Telecommunications Administrative Permit Application (TC-4-11) for a Modification to an Existing Wireless Telecommunications Facility at 1 West Hill Rd. (APN: 005-290-010)

Modus Corp, on behalf of Sprint, respectfully requests that the action item for a telecommunications administrative permit at 1 West Hill Road that was scheduled for the January 12th Planning Commission meeting be continued at the February 23rd hearing.

Due to the neighbors concerns about the noise and radio frequency levels, Sprint wants to ensure that they have ample time to generate the necessary reports (noise/acoustical report and EMF report) that ensure the proposed modifications to the site fall within the noise guidelines of the Brisbane Municipal Code as well as the radio frequency guidelines of the FCC. These reports would not be able to be generated by the scheduled January 12th Planning Commission meeting. Therefore, Sprint would like to request that this action item be rescheduled to the February 23rd meeting.

It has come to Sprint's attention that the original Planning Commission meeting on January 12th would be the last meeting that the Planning Commission would have before the 60 day deadline for the Commission to either approve or disapprove of the project, per Government Code 65940(a)(4). In consideration of this item, Sprint is formally requesting for a 90 day extension for the Planning Commission to make a decision on the Telecommunication Administrative Permit Application #TC-4-11 at 1 West Hill Road, per Government Code 65943(d), 65950(b) & 65957.

If this is not feasible or if you have any questions or concerns, please do not hesitate to contact me at (408) 219-5442 or kbowyer@modus-corp.com.

Sincerely,

Kevin Bowyer, Land Use Planning Agent for Sprint
