Subject: RE: Baylands

To the city council

Many of us can remember the excitement from the development of Sierra Point. The Hitachi building the marina The Yacht Club. The ridge Development in the end give us Mission blue and other amenities that improved Brisbane and increased the value of that development. There is a great potential for the bay lands to add much to Brisbane but as we all know there are concerns and fears.

For a number of reasons the bay lands has become very valuable and part of the proposed development includes much needed housing near transportation. It is time to move forward.

Respectfully Bill Dettmer
