To the Brisbane City Council

As I was getting ready to deliver a Christmas tree I asked the person if it was going to Brisbane or up at the ridge. I was reminded that that the ridge is part of Brisbane and I apologized. Just because I moved here in 1957 doesn't mean I'm any more of a citizen than anyone else in this town which now includes the Ridge and may include the bay lands. A major fear is that someday they might out vote us and maybe we cannot handle that. But if the ridge is an indication of what the bay lands might be like there could be citizens out there that would want to be part of Brisbane.

Thanks for all you do. Bill Dettmer
