## FIRE HYDRANT PAINTING & RESTORATION APPLICATION

### APPLICANT INFORMATION

Applicant's Name			
Street Address			
City			
State		Zip	
Primary Phone		Secondary Phone	
Email Address			

### PARTICIPATION DETAILS

The Fire Hydrant Painting & Restoration Event invites people to participate in a variety of ways. Please let us know how you would like to participate in this year's event by completing the required information below.

**OPTION 1:** (check box if applicable)

I would like to restore a hydrant with an existing design.  
*(Please continue to section 1A.)*

**OPTION 2:** (check box if applicable)

I would like to submit a new design for a hydrant.  
*(Please continue to section 2B.)*

**SECTION 1A:** Restoring an existing hydrant means preserving the original design but simply touching it up with a good cleaning and fresh coat of paint. The goal is to update and restore the hydrant to the best of your ability keeping as close to the original design as possible. There are many hydrants in town that have already been painted, some more recently than others. Those that were painted within the last couple of years have been placed on the "not available for restoration" list as they are in relatively good condition and we want to honor the work of the artists for a period of time. Please review the Fire Hydrant Master Catalog and identify which hydrant it is that you are interested in restoring from the "available for restoration" list.

**I would like to restore the following hydrant:**

**Hydrant Name:** \_\_\_\_\_

**Hydrant Location:** \_\_\_\_\_

***Note:** If you personally painted a hydrant in the last few years and would like to restore it yourself this year, we are happy to allow it. Please contact our office directly to make necessary arrangements.*

**SECTION 2B:** Submitting a new hydrant design is slightly more complicated since the process involves the North County Fire Authority. The NCFCA maintains the authority to approve or deny a proposed hydrant design and there are several hydrants in town that must remain painted one solid color for identification and coding purposes. Different colored hydrants and crowns signify pressure levels, etc. New design proposals must be submitted for review to the NCFCA no later than May, 1st. Please review the Fire Hydrant Master Catalog and identify which hydrant it is that you are interested in redesigning from the list.

**I would like to submit a new design for the following hydrant:**

**Hydrant Name:** \_\_\_\_\_

**Hydrant Location:** \_\_\_\_\_

**ALL APPLICANTS:**

I intend to participate on Saturday, May 11<sup>th</sup>.     I intend to participate on Sunday, May 12<sup>st</sup>.     I intend to participate on both days.

You are welcome to paint a hydrant on your own, however if you intend to paint/restore a hydrant with other individuals, we'd like to document their names as well. Please provide any additional helpers names below:

\_\_\_\_\_

### NEXT STEPS

Once we have received your application, we will verify the availability of the requested hydrant and confirm your reservation. If there is an issue with your application, the hydrant requested is not available, or your design is rejected by NCFCA, our office will contact you in order to make other arrangements.

Your completed application can be sent to:  
ATTN: Parks & Recreation Department | 50 Park Place | Brisbane, CA 94005  
For additional information regarding the application process, please call our office at 415-508-2141.
