

City of Brisbane

Agenda Report

TO: Honorable Mayor and City Council

FROM: Randy Breault, Director of Public Works/City Engineer via City Manager

SUBJECT: Local Hazard Mitigation Plan Update

DATE: October 15, 2015

City Council Goals:

To provide public service that assures the safety of property and citizens residing, working, or visiting in Brisbane. (#9)

Purpose:

To inform the Council of ongoing outreach efforts relative to the Local Hazard Mitigation Plan (LHMP) update. This effort is consistent with the Council's value of staff anticipating and preparing for incidents in order to minimize their impacts on the community. There is no action required for this item; input and direction is always welcome.

Recommendation:

Receive the staff report and offer any input deemed necessary and appropriate.

Background:

Title 44 Code of Federal Regulations (CFR) §201.6 and Section 322 of the Robert T. Stafford Act, 42 U.S.C. 5165 require local governments to develop LHMPs. The existence of the base plan and the regular 5-year update is a prerequisite for a community to be eligible for FEMA Hazard Mitigation Assistance grant programs. City staff has been working for several months on the first 5-year update, which is due Spring 2016.

Discussion:

The following is excerpted from FEMA's March 2013 *Local Mitigation Planning Handbook*:
