2019 Tide Tables are here!

## *Spring is sprung (almost)*

Hello again, and here is a reminder why we ask that you **come and check your dock lines!**

This boater let his lines fray, and this giant @#% boat broke loose in a gale, in their double-wide slip (thankfully, no neighbor boat present!) and we struggled to get the boat secured and safe.

**Result:**  
**Unnecessary damage to power, water and dock box.**  
There are still many windy days to come this year and we often experience gusts upward of 50 MPH here... so PLEASE attend to your boat, bilges and dock lines.

We have been approved to receive a State of California grant to replace our pump-out system, and we are only awaiting final-final word from our partners at the Department of Boating and Waterways.

The live-aboard program has kicked off without a hitch and we are happy to report that the owners' boats are in good shape and the program participants are all set. Now with many extra sets of eyes & ears on our docks as added security awareness/presence, we all benefit. Some legal live-aboard slips remain.

Remember, we depend on your input and help after-hours, or even during regular business hours, to let us know if there is any hazard or issue needing our immediate attention. We are here to assist and answer any questions you might have...

Our door is always open and it is a pleasure to serve our boaters!
