Teresa Camarda

Maintenance:
Chris Redfield
Doug Messing

Marina Services Director:
Randy Breault

2019 Tide Tables are here!

Beautiful weather is here!

Finally, we are settling into the usual sun, wind, and fog pattern we know and love. It is time to get out and enjoy your boat!

Messing with the restrooms? SOMEONE is, and when we discover who it is, we will deal with them appropriately. Why would someone remove knobs, kill wall breaker switches and leave restroom doors propped open with the deadbolt, intentionally, in the middle of the night? We want to know, too. This creates darkness and security issues for all users that may follow... we are serious on the follow-up investigation and will take action as required to mitigate the damages to our facility. Please let us know if you see suspicious activity. If you see something, say something!

You have probably noticed that there are many changes near the Marina's facility entrance and to the Bay Trail. These changes come with the construction of several new buildings and parking structures in the area west of the SPYC lot. We have a newly paved sidewalk and crosswalk near the parking lot entrance and overall pedestrian access at the termination of the project should be improved. The trail on the south side of the Sierra Point "peninsula" remains closed until the end of construction, and signs with updates on timelines are posted by the builders periodically. Needless to say, your patience with access and noise issues is appreciated!

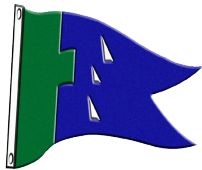

The sailing season is upon us and there will be a presentation of the rules and courses for this year's Beer Can race season sponsored by the Sierra Point Yacht Club at their facility on Tuesday, May 7th at 6 PM. Be sure to attend so you can join in the racing and the excellent post-race fun at the SPYC!

A short update on future improvements here includes installation of a brand new pump-out facility, improvements to the existing fishing pier, and a new metal work building to be set up south of the SPYC on the pad that has been poured. Our Marina Maintenance workers Chris Redfield and Douglas Messing have done an amazing job on the docks, buildings and grounds and the place is looking sharp—be sure to thank them for their efforts when you see them working on your docks! Your Brisbane Marina staff are an integral part of the Brisbane Public Works team, and we have the ability to bring many tools to bear on any issues arising here thanks to the depth of our team! National Public Works week is May 19-25th.

We appreciate your business and are happy you have chosen the beautiful Brisbane Marina!

Michael Hahn
Harbormaster

Enjoy the beauty and the quiet times here...

Sierra Point Yacht Club

Michael Bell, Commodore

- **Every Friday Night—Pot Luck 6-9 PM**
 - **MAY OPEN HOUSE: Sat. 5/5/19**
