BRISBANE's CEVs

Have Got….

THE RIGHT STUFF !

Brisbane
Community
Emergency
Volunteers

If the "BIG ONE" hits, we may be on our own!

The Community Emergency Volunteers (CEVs) is a volunteer organization closely affiliated with the City of Brisbane whose members become a temporary resource to the City during emergency situations. The organization's purpose is to provide a group of trained citizens to assist in the City's disaster response and encourage emergency preparedness in the community.

WHAT IS "THE RIGHT STUFF"?

- *Training in basic skills needed to perform with confidence during an emergency*
- *A Desire to Serve your Community*
- *A Commitment to the CEV Program*
- *Initiative*
- *Leadership*
- *Camaraderie*
- *Imagination*
- *A Willingness to Invest in the Community*

CEV Participation Means:

Raising community awareness of emergency responses through annual exercises and an educational booth at the annual Community Festival and other events

Quarterly meetings of the membership to enhance working relationships, practice skills, and update training in areas of emergency operations and management

Ongoing certification classes, conducted by the Brisbane Fire Department, in Cardio-Pulmonary Resuscitation (CPR) and Standard First Aid

Training in Damage assessment

Surveying the City for damage after the December '95 storm involving high winds

Supporting the Public Works Department by filling sandbags during the El Niño Storms
